Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in interconnected stories. In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love.

The eighteenth-century Venetian painter Giambattista Tiepolo spent his life executing commissions in churches, palaces, and villas, often covering vast ceilings like those at the Würzburg Residenz in Germany and the Royal Palace in Madrid with frescoes that are among the glories of Western art. The life of an epoch swirled around him—but though his contemporaries appreciated and admired him, they failed to understand him. Few have even attempted to tackle Tiepolo's series of thirty-three bizarre and haunting etchings, the Capricci and the Scherzi, but Roberto Calasso rises to the challenge, interpreting them as chapters in a dark narrative that contains the secret of Tiepolo's art. Blooming ephebes, female Satyrs, Oriental sages, owls, snakes: we will find them all, as well as Punctinello and Death, within the pages of this book, along with Venus, Time, Moses, numerous angels, Cleopatra, and Beatrice of Burgundy—a motley company always on the go. Calasso makes clear that Tiepolo was more than a dazzling intermezzo in the history of painting. Rather, he represented a particular way of meeting the challenge of form: endowed with a fluid, seemingly effortless style, Tiepolo was the last incarnation of that peculiar Italian virtue sprezzatura, the art of not seeming artful.

"I conjure thee, Oh BOOK to be useful and profitable unto all those who shall read thee for success in their affairs.."
Conjuration for the Book, Grimoire of Pope Honorius Description: The Grimoire of Pope Honorius is the first and most important of the French 'black magic' grimoires which proliferated across Europe in the 17th-19th centuries. Combining a grimoire of conjurations to demons of the four directions and seven days of the week with a Book of Secrets full of simple charms, the Grimoire of Pope Honorius was second only to the Key of Solomon in the influence it exerted on magicians, charmers and cunning-folk in both rural and urban France. This grimoire also played a role in social events which rocked France, being used in the Affair of the Poisons which scandalised the French royal court in 1679, and by the young priest who assassinated the archbishop of Paris in 1857. The Complete Grimoire of Pope Honorius contains material translated from all four of the different French editions of the Grimoire of Pope Honorius, including the complete text of one manuscript version never before seen in English (Wellcome 4666), and a new translation of the later corrupted German version of 1845. All of the material and its variations found in the five different editions of the Grimoire of Pope Honorius is contained in this work, presenting the entire corpus of this grimoire in print for the first time. In addition to tracing much of the material to sources such as the Heptameron, the works of Agrippa and earlier religious texts for the first time, the derivation of much of the material into later grimoires including the Grimorium Verum, the Grand Grimoire/Red Dragon and the Black Dragon is clearly demonstrated. As well as charms for health, wealth, sex and protection, the Grimoire of Pope Honorius also contains a substantial number of agrarian charms by the Norman magician Guidon for protecting livestock, emphasising the popular rural use of such charms until at least the 19th century. The corpus of charms comes from diverse sources, including Scot's Discoverie of Witchcraft (1584), and some like the Letter of St Anthony can be dated back to at least the 13th century. Including numerous illustrations, and tables tracing the derivation of the material through the different editions and into other grimoires, the Complete Grimoire of Pope Honorius demonstrates the versatility and significance of this grimoire, cutting past outdated misperceptions to a viewpoint which reflects more accurately the position of the Grimoire of Pope Honorius in the development of magic since the seventeenth century.

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Basic concepts of fluids and fluid flow are essential in all engineering disciplines to get better understanding of the courses in the professional programmes, and obviously its importance as a core subject need not be overemphasised.

In his new book, Raymond Smullyan, grand vizier of the logic puzzle, joins Scheherazade, a charming young woman of "fantastic logical ingenuity," to give us 1001 hours of brain-teasing fun. Scheherazade, we find, has gotten back into hot water with the king, and is once more in danger of losing her head at dawn. But, thinking quickly, she tempts the king to stay her execution by posing him the most delightfully devious mathematical and logic puzzle ever invented. They keep him guessing for many more nights until the fatal hour has passed, and she keeps her head. The Riddle of Scheherazade includes several wonderful old chestnuts and many fiendishly original puzzles, 225 in all. There are logic tricks and number games, metapuzzles (puzzles about puzzles), liar/truth-teller exercises, G 0 delian brian twisters, baffling paradoxes, and an excursion, under Scheherazade's expert guidance, into an amusing new field invented by Smullyan, called "coercive" logic, in which the answer to a problem can actually change the fate of the puzzler! A heart-wrenching true story of one young man's journey into, through, and out of the Holocaust. Some people have a knack for survival, for getting out of jams. Twelve-year-old David Karmi found himself face to face with the ultimate test. With his homeland consumed by fear, David entered a world of human slaughter. Whole towns were vaporized. Cities obliterated in firestorms. More than fifty million people died—twelve million either gassed, shot, hanged, worked to death or subjected to biological experiments. David survived. Separated from his parents and siblings, David Karmi was hurled into a nightmare of death camps, forced marches, sickness, violence and depravity. On his own, through the tortuous months that followed, he endured. He is a survivor of Auschwitz, Dachau, and the Warsaw Ghetto. He endured forced marches, starvation, and even persecution after the Allies freed him from the camps. This is a story of strength, courage, some luck - and an amazing man, told in his own words. It is the biography of a survivor. PRAISE FOR SURVIVOR'S GAME: "[Karmi's debut forges] the despair employed by Primo Levi and Elie Wiesel, instead echoing the optimism of Anne Frank... Eminently readable and largely remarkable." —Kirkus Reviews "Some people have a knack for survival, for getting out of jams.' Karmi is one of those, and he faces the ultimate test as a young teen in Nazi-occupied Europe as he and his family are deported to Auschwitz." —Publishers Weekly "Survivor's Game reads not so much like a memoir but a novel, replete with tension, drama, and twists and turns. Recommended." —Midwest Book Review "This is a story we all need to know...the cost of forgetting is too high." —New York Times best-selling author Maya Kaathryn Bohnhoff

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, Incidents in the Life of a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
