Research, Action and Policy:
Addressing the Gendered Impacts of
Climate Change presents the voices of
women from every continent, women

Online Library 2013 Dse Econ Paper 1

who face vastly different climate events and challenges. The book heralds a new way of understanding climate change that incorporates gender justice and human rights for all. When a country is threatened by an insurgency, what efforts give its

Online Library 2013 Dse Econ Paper 1

government the best chance of prevailing? Contemporary discourse on this subject is voluminous and often contentious. Advice for the counterinsurgent is often based on little more than common sense, a general understanding of history, or a handful

Online Library 2013 Dse Econ Paper 1

of detailed examples, instead of a solid, systematically collected body of historical evidence. A 2010 RAND study challenged this trend with rigorous analyses of all 30 insurgencies that started and ended between 1978 and 2008. This update to that original

Online Library 2013 Dse Econ Paper 1

study expanded the data set, adding 41 new cases and comparing all 71 insurgencies begun and completed worldwide since World War II. With many more cases to compare, the study was able to more rigorously test the previous findings and address critical

Online Library 2013 Dse Econ Paper 1

questions that the earlier study could not. For example, it could examine the approaches that led counterinsurgency forces to prevail when an external actor was involved in the conflict. It was also able to address questions about timing and duration, such as which factors

Online Library 2013 Dse Econ Paper 1

affect the duration of insurgencies and the durability of the resulting peace, as well as how long historical counterinsurgency forces had to engage in effective practices before they won.

A companion volume, *Paths to Victory: Detailed Insurgency Case*

Online Library 2013 Dse Econ Paper 1

Studies, offers in-depth narrative overviews of each of the 41 additional cases; the original 30 cases are presented in *Victory Has a Thousand Fathers: Detailed Counterinsurgency Case Studies*.

Insects as Sustainable Food

Online Library 2013 Dse Econ Paper 1

Ingredients: Production, Processing and Food Applications describes how insects can be mass produced and incorporated into our food supply at an industrial and cost-effective scale, providing valuable guidance on how to build the insect-based agriculture and

the food and biomaterial industry.
Editor Aaron Dossey, a pioneer in the processing of insects for human consumption, brings together a team of international experts who effectively summarize the current state-of-the-art, providing helpful recommendations on

This book examines recent developments in Latin American biofuel production. Taking “sustainable development” as a central theme, each chapter considers one country in the region and explores how

Online Library 2013 Dse Econ Paper 1

biofuel production is evolving given concerns about food sovereignty, trade and other social issues. Environmental conservation, as well as an increasingly complex and globalized economic structure, is also taken into account. The contributions to this volume

Online Library 2013 Dse Econ Paper 1

critically explore the ways in which biofuel production in Latin America impact social, economic and environmental systems: the so-called “three pillars of sustainability”. Numerous stakeholders, drawn from government, industry, civil society and

Online Library 2013 Dse Econ Paper 1

academia have attempted to define “Sustainable Development” in the context of biofuel production and to operationalize it through a series of principles, criteria, and highly specific indicators. Nevertheless, it remains a fluid and contested concept with deep

political and social ramifications,
which each chapter explores in detail.

The book is a collection

Online Library 2013 Dse Econ Paper 1

of essays written since 2010, and dealing, in one way or another, with the place of values in economic analysis. The centrality of values in the collection is not

Online Library 2013 Dse Econ Paper 1

surprising, given that the thematic concerns informing the essays in the book relate principally to methodological issues in economic enquiry, to the

Online Library 2013 Dse Econ Paper 1

normatively constrained
aggregation of personal
preferences into
collective choice, and to
problems of logical
coherence and ethical
appeal in the axiom

Online Library 2013 Dse Econ Paper 1

systems underlying the measurement of economic and social phenomena such as poverty, inequality and literacy. While many of the essays are more or less technical in nature,

Online Library 2013 Dse Econ Paper 1

they are all explicitly motivated by considerations that go beyond the formalisms of presentation to an involvement with the role of moral reasoning in

Online Library 2013 Dse Econ Paper 1

economic analysis. In particular, the essays emphasize the importance of 'ought propositions' in a science which is all too often regarded as being wholly and exclusively

Online Library 2013 Dse Econ Paper 1

'positive' in its orientation. The book should be of particular interest to researchers, students, and public policy makers.

Urbanization is a global

Online Library 2013 Dse Econ Paper 1

phenomenon and the book emphasizes that this is not just a social-technological process. It is also a social-ecological process where cities are places for

Online Library 2013 Dse Econ Paper 1

nature, and where cities also are dependent on, and have impacts on, the biosphere at different scales from local to global. The book is a global assessment and

Online Library 2013 Dse Econ Paper 1

delivers four main conclusions: Urban areas are expanding faster than urban populations. Half the increase in urban land across the world over the next 20 years will occur

Online Library 2013 Dse Econ Paper 1

in Asia, with the most extensive change expected to take place in India and China Urban areas modify their local and regional climate through the urban heat island effect and by

Online Library 2013 Dse Econ Paper 1

altering precipitation patterns, which together will have significant impacts on net primary production, ecosystem health, and biodiversity
Urban expansion will

Online Library 2013 Dse Econ Paper 1

heavily draw on natural resources, including water, on a global scale, and will often consume prime agricultural land, with knock-on effects on biodiversity and ecosystem

Online Library 2013 Dse Econ Paper 1

services elsewhere Future urban expansion will often occur in areas where the capacity for formal governance is restricted, which will constrain the protection of biodiversity

We undertake an extended discussion of the latest developments about the existing and new estimation methods of the shadow economy. New results on the shadow economy for 158 countries all over the world are

Online Library 2013 Dse Econ Paper 1

presented over 1991 to 2015. Strengths and weaknesses of these methods are assessed and a critical comparison and evaluation of the methods is carried out. The average size of the shadow economy of the 158 countries over

Online Library 2013 Dse Econ Paper 1

1991 to 2015 is 31.9 percent. The largest ones are Zimbabwe with 60.6 percent, and Bolivia with 62.3 percent of GDP. The lowest ones are Austria with 8.9 percent, and Switzerland with 7.2 percent. The new methods, especially the new

Online Library 2013 Dse Econ Paper 1

macro method, Currency Demand Approach (CDA) and Multiple Indicators Multiple Causes (MIMIC) in a structured hybrid-model based estimation procedure, are promising approaches from an econometric standpoint, alongside

Online Library 2013 Dse Econ Paper 1

some new micro estimates. These estimations come quite close to others used by statistical offices or based on surveys.

Non-market valuation is becoming increasingly accepted as an evaluative tool of economics related

Online Library 2013 Dse Econ Paper 1

presents recent results that have arisen in a mixed oligopolistic market. The wave of privatization since the 1980s has taken the development of the theory of mixed oligopoly in several directions. Although the main concern of the

Online Library 2013 Dse Econ Paper 1

theory of mixed oligopoly focuses on the effect of regime change—especially privatization of a public firm—on social welfare, existing studies have not considered the difference in economic environments. With

Online Library 2013 Dse Econ Paper 1

drastic changes in economic environments along with economic development in recent years, the domestic and foreign markets have become more and more integrated, firms have become concerned about corporate social

Online Library 2013 Dse Econ Paper 1

responsibility, and governments or politicians have had various interests and preferences. Against that background, this book revisits the question of how privatization affects social welfare by incorporating regional and

Online Library 2013 Dse Econ Paper 1

international interdependency and investigates how firms ' activities for corporate social responsibility, governments ' preferences, and political economic situations affect the market circumstance in a mixed oligopoly. The dynamic aspect of

Online Library 2013 Dse Econ Paper 1

privatization is also investigated.

In 2018, the International Symposium on Nanogeoscience was held in Guiyang, China. Scholars from around the globe gathered to discuss recent progress and development trends in various aspects of

Online Library 2013 Dse Econ Paper 1

nanogeoscience, including nanomineralogy. Nanomineralogy, an important aspect of nanogeoscience, focuses on the composition, structure, and physical and chemical properties of nanoscale minerals and their interrelations with other Earth

critical components. To give a sampling of the latest progress in nanomineralogy and related fields, we offer this Special Issue, which describes a full range of recent nanomineralogic achievements relating to everything from nanominerals and geochemistry,

Online Library 2013 Dse Econ Paper 1

mineral nanostructures, and nanomineral deformation, to nanopores in oil and gas reservoirs, nanomineral deposits, and nanomineral material. Today, nanomineralogy faces a new strategic opportunity as well as a revolutionary challenge. We thus

In recent years the countries of southern Europe have undergone,

Online Library 2013 Dse Econ Paper 1

with varying intensity, a serious and prolonged economic crisis. Most have had to implement comprehensive economic adjustment programmes, including a wide range of structural reforms. Economic Crisis and Structural Reforms in Southern Europe

Online Library 2013 Dse Econ Paper 1

examines these reforms, drawing policy lessons from their successes and failures. This book employs two basic strands of analysis: issues of policy design, and political economy considerations. It considers the choice of timing and sequencing of

Online Library 2013 Dse Econ Paper 1

reforms, the choice of the appropriate policy instruments, the pressure of interest groups and the political calculations involved in reforms. Featuring chapters in which contributors explore both national cases of specific structural reforms, and a comparative

Online Library 2013 Dse Econ Paper 1

approach in order to evaluate similar reforms across countries, this important and topical work explores ongoing issues within the economy. Focusing on the challenges of designing and implementing structural reforms under conditions of crisis, this

Online Library 2013 Dse Econ Paper 1

book will be of interest to policy makers and researchers from national and international organizations as well as academics and members of research institutes interested in the economics and politics of the Eurozone crisis. In order for foreign direct

Online Library 2013 Dse Econ Paper 1

investment to have deep and lasting positive effects on host countries, it is essential that multinational corporations have close direct and indirect interaction with local firms. A valuable addition to the emerging literature on multinational-local firm interfaces,

Online Library 2013 Dse Econ Paper 1

this book provides a number of case studies from emerging economies that examine such mutually beneficial business relationships and the policy measures necessary to support them.

The rapidly growing field of

Online Library 2013 Dse Econ Paper 1

behavioral ethics shows that dishonest acts are highly prevalent in all walks of life, from corruption among politicians through flagrant cases of doping in sports, to everyday slips and misdemeanors of ordinary people who nevertheless perceive themselves

Online Library 2013 Dse Econ Paper 1

as highly moral. When considered cumulatively, these seemingly innocuous and ordinary unethical behaviors cause considerable societal damage and add up to billions of dollars annually. Research in behavioral ethics has made tremendous advances in

Online Library 2013 Dse Econ Paper 1

characterizing many contextual and social factors that promote or hinder dishonesty. These findings have prompted the development of interventions to curb dishonesty and to help individuals become more committed to ethical standards. The current e-book

Online Library 2013 Dse Econ Paper 1

includes studies that test and advance current theory and deepen our understanding of the cognitive and physiological processes underlying dishonest behavior, discuss possible implications of findings in behavioral ethics research for real life situations,

Online Library 2013 Dse Econ Paper 1

document dishonest behavior in the field and/or directly examines interventions to reduce it.

This open access book approaches the anxieties inherent in food consumption and production in Vietnam. The country's rapid and recent economic

Online Library 2013 Dse Econ Paper 1

integration into global agro-food systems and consumer markets spurred a new quality of food safety concerns, health issues and distrust in food distribution networks that have become increasingly obscured. This edited volume further puts the eating body

Online Library 2013 Dse Econ Paper 1

centre stage by following how gendered body norms, food taboos, power structures and social differentiation shape people's ambivalent relations with food. It uncovers Vietnam's trajectories of agricultural modernisation against which consumers

Online Library 2013 Dse Econ Paper 1

and producers manoeuvre amongst food self-sufficiency, security and abundance. Food Anxiety in Globalising Vietnam is explicitly about 'dangerous' food – regarding its materiality and meaning. It provides social science perspectives on anxieties

Online Library 2013 Dse Econ Paper 1

related to food and surrounding discourses that travel between the local and the global, the individual and society and into the body. Therefore, the book's lens of food anxiety matters for social theory and for understanding the embeddedness and discontinuities

Online Library 2013 Dse Econ Paper 1

of food globalizations in Vietnam and beyond. Due to its rich empirical base, methodological approaches and thematic foci, it will appeal to scholars, practitioners and students alike.--

An international joint study by the
Food and Agriculture Organization of

Online Library 2013 Dse Econ Paper 1

the United Nations (FAO) and UNESCO's International Institute for Educational Planning (IIEP) was conducted on education and rural development to review the status of the topic from the standpoint of public policies and the conceptual frameworks

Online Library 2013 Dse Econ Paper 1

on which they are based and also to shed light on what may be called "good practice." The findings of the study are meant to serve not as models, but rather as points of reference for all those who are seeking ways of developing education in rural areas and

Online Library 2013 Dse Econ Paper 1

contributing more effectively to rural development. Chapter I, "Education and Rural Development: Setting the Framework" (David Atchoarena and Charlotte Sedel), provides a contextual and theoretical introduction to the new rural development and poverty

Online Library 2013 Dse Econ Paper 1

reduction thinking, as well as a discussion on the contribution of education to rural development. In Chapter II, "Basic Education in Rural Areas: Status, Issues and Prospects" (Michael Lakin with Lavinia Gasperini), the book reviews in depth

Online Library 2013 Dse Econ Paper 1

the provision of basic education in rural areas and offers some policy directions for improvement. Further exploring a particular dimension of basic education, Chapter III, "Making Learning Relevant: Principles and Evidence from Recent Experiences"

Online Library 2013 Dse Econ Paper 1

(Peter Taylor, Daniel Desmond, James Grieshop and Aarti Subramaniam), devotes specific attention to strategies linking the formal school teaching with students' life environment, including agriculture, and to garden-based learning. The intention is to provide

Online Library 2013 Dse Econ Paper 1

updated information and new insights on much-debated aspects which are often associated with rural areas although their application is much broader. Chapter IV, "Strategies and Institutions for Promoting Skills for Rural Development" (David

Online Library 2013 Dse Econ Paper 1

Atchoarena, Ian Wallace, Kate Green, and Candido Alberto Gomes), shifts the analysis from education to work and discusses the implications of the transformation of rural labor markets for skill development. A particular concern is the rise in rural non-farm

Online Library 2013 Dse Econ Paper 1

employment and the need to enlarge the policy focus from agricultural education and training to technical and vocational education for rural development. This debate is taken further in Chapter V, "Higher Education and Rural Development: A

Online Library 2013 Dse Econ Paper 1

New Perspective" (Charles Maguire and David Atchoarena), which considers higher level skills and the contribution of the tertiary education sector to rural development. Special attention is given to the reform of higher agricultural institutions and

Online Library 2013 Dse Econ Paper 1

lessons based on case studies are provided to document good practice in institutional reform. Finally, Chapter VI, "Main Findings and Implications for Policy and Donor Support" (David Atchoarena with Lavinia Gasperini, Michael Lakin and Charles Maguire),

Online Library 2013 Dse Econ Paper 1

concentrates on the main findings of the study and discusses policy implications and possible responses for donors and countries. (Contains 28 tables, 14 figures, and 64 boxes.).

This college-level textbook summarizes the state of current knowledge in the rapidly expanding field of agroforestry. The book, organized into 25 chapters in six sections, reviews the developments in agroforestry

Online Library 2013 Dse Econ Paper 1

during the past 15 years and describes the accomplishments in the application of biophysical (plant and soil related) and socioeconomic sciences to agroforestry. Although the major focus of the book is on

Online Library 2013 Dse Econ Paper 1

the tropics, where the practice and potential of agroforestry are particularly promising, the developments in temperate zone agroforestry are also discussed. This text is recommended for students,

teachers, and researchers in agroforestry, farming systems, and tropical land use.

Since the waves of financial liberalization in the 1980s, emerging market economies have been accessible to foreign

Online Library 2013 Dse Econ Paper 1

investors. Altogether, they contributed up to 43.8% of the global GDP in 2018, and many of them, such as China, India, Bangladesh, Philippines, Myanmar and Vietnam from 2010 to 2019, are among the fastest-

Online Library 2013 Dse Econ Paper 1

growing economies in the world. Given the high economic growth, the assets issued by companies in emerging markets are viewed as a new set of investment opportunities for global investors and fund managers who seek to

Online Library 2013 Dse Econ Paper 1

improve the risk-adjusted performance of their portfolios. In addition to their risky profile due to the lack of transparency as well as stable and matured institutions, their recent development path faces a

Online Library 2013 Dse Econ Paper 1

number of challenges arising not only from the slow pace of economic reforms but also from their increased integration with the world. Geopolitical risks, the US–China trade wars, and rising policy uncertainty around the

Online Library 2013 Dse Econ Paper 1

world are expected to reduce their growth potential and performance. This Special Issue dedicates special attention to the current dynamics of emerging financial markets, as well as their perspectives of development as

Online Library 2013 Dse Econ Paper 1

a key driver for sustainable firms and economies. Accordingly, the focus is particularly placed on market integration and interdependence, valuations and risk management practices, and the financing means for inclusive

growth.

Despite the urbanization and gradual rise of medium-to-large scale farming sector, smallholders without substantial mechanization remain central to agriculture in countries like

Online Library 2013 Dse Econ Paper 1

Ghana. Significant knowledge gaps exist on the adoptions of agricultural mechanization among smallholders for whom the scope for exploiting complementarity with land is limited. We test the hypotheses that high-yielding

Online Library 2013 Dse Econ Paper 1

technologies, which potentially raise total factor productivity and also returns to more intensive farm power use, are important drivers of adoptions of agricultural mechanization among smallholders. Using the three

agroclimatic similarity with plant-reeding locations, this paper shows that the adoption of rented agricultural equipment and tractors in Ghana has been induced by high-yielding production systems that have

Online Library 2013 Dse Econ Paper 1

concentrated in areas that are agroclimatically similar to plant-breeding locations. These effects hold for mechanization adoptions at both extensive margins (whether to adopt or not) and intensive margins (how much to

Online Library 2013 Dse Econ Paper 1

adopt). These linkages have strengthened between 2006 and 2010s, partly due to improved efficiency in supply-side factors of mechanization.

The concept of globalisation is essentially about the increasing

Online Library 2013 Dse Econ Paper 1

economic, political, cultural and technological intergradation with increasing speed, depth and breadth. Globalisation has become a buzz word in many academic debates, especially, amongst those who use the

Online Library 2013 Dse Econ Paper 1

concept to describe the spread of global capitalism, market, the declining role of the state, and globalisation of civil society. (Harvey, 2005; Harmon, 2009; Chomsky 1999; Saad-Filho and Johnston 2004). In short, Harvey

Online Library 2013 Dse Econ Paper 1

defines neoliberalism as: . . . a theory of political, economic practices that proposes that human well-being can best be advanced by liberating individual entrepreneurial freedoms and skills within an institutional

Online Library 2013 Dse Econ Paper 1

framework characterized by strong private property rights, free markets and free trade. The role of the state is to create and preserve an institutional framework appropriate to such practices. The state has to

Online Library 2013 Dse Econ Paper 1

guarantee, for example, the quality and integrity of money. It must also set up those military, defence, police and legal structures and functions required to secure private property rights and to guarantee,

Online Library 2013 Dse Econ Paper 1

by force if need be, the proper functioning of markets.

Furthermore, if markets do not exist (in areas such as land, water, education, health care, social security, or environmental pollution) then they must be

Online Library 2013 Dse Econ Paper 1

created, by state action if necessary (Harvey 2005:2). This has become an all-encompassing term for differing economic and political projects. What essentially new liberalism has in common is that the state should

Online Library 2013 Dse Econ Paper 1

be minimal, as the competition of the market will bring economic efficiency and choice. The crisis of capitalism in the late 1970s and 1980s has opened the gap for neoliberal ideas to have resonance as a solution to global

Online Library 2013 Dse Econ Paper 1

capitalism. Despite their political, historical, geographical and economic differences, nearly every country in the world, especially, in the global south, has implemented neoliberal policies in some form. The

Online Library 2013 Dse Econ Paper 1

policies have become an increasingly real alternative to over-come the predicament of the world economy. With the demise of Soviet ideology, the advocates of the free market liberalism in the world, particularly, in the

Online Library 2013 Dse Econ Paper 1

USA, saw this as an opportunity to reassert their power globally. Hence, the globalisation of the world economy is claimed to 'serve the great majority of the world's people', and it will liberate the poor countries be- cause they

Online Library 2013 Dse Econ Paper 1

will have 'free domestic and international trade and more open financial markets' (Wade: 2004:38). At the core of globalisation lies the belief that a country must promote the private sector as the primary engine

Online Library 2013 Dse Econ Paper 1

of its economic growth by shrinking the size of its state bureaucracy; increasing exports; privatising state-owned industries and utilities and deregulating capital markets (Freidman, 1999). The process that led to

Online Library 2013 Dse Econ Paper 1

claim that the state, 'that artefact of the eighteenth and nineteenth centuries – has begun to crumble' (Ohmea, 1995: 7). With the international system, the borders are no longer necessary, and the international commerce

Online Library 2013 Dse Econ Paper 1

would become free from the cumbersome constraints of state interference. However, the reality after nearly three decades of globalisation have not been drastically different from much of the world, the international

Online Library 2013 Dse Econ Paper 1

system has yet to witness universalization of democracy or wealth. In fact, 'one of the consequences of globalisation appears to have been the poor growth and polarisation of wealth' (Morady & Siriner, 2011). Whilst

Online Library 2013 Dse Econ Paper 1

'the free market ideology that has dominated the public discourse as it puts emphasis on the dominant criterion of maximising profit through the private sector', a more fundamental question is, 'whether the market will be able

Online Library 2013 Dse Econ Paper 1

to provide all the social, economic and political needs of the world's people' (Morady & Siriner, 2011), when the "bare logic" of capitalism is pitted against the cultural values of human experience (Castells, 2000).

Online Library 2013 Dse Econ Paper 1

Globalisation, even if it's intended to meet basic economic, political and social needs of ordinary people, it has failed to deliver in much of the world. Indeed, this is noticeable in the area of gender equality. Their opposition to the

Online Library 2013 Dse Econ Paper 1

globalisation has also been considerable with different social movements such as 'anti Capitalism' and 'anti war movement' have challenged the neoliberal agenda around the world. They have demonstrated

Online Library 2013 Dse Econ Paper 1

their resentment in the process of economic, political and social unevenness, inequality between poor and rich, men and women, and the power of international organisations. The organisation of the current book comprises

Online Library 2013 Dse Econ Paper 1

different articles dealing with various domestic, regional, and global economics, political and social issues. This book is mainly focusing on Turkey, but different authors have used different frameworks with empirical

Online Library 2013 Dse Econ Paper 1

studies. We hope to provide an assessment of globalisation and its impact within the international system. The first article by Evren Denктаş and Bengü Doğangün Yasa is an attempts to analyse Karl Marx and Max Weber's work

Online Library 2013 Dse Econ Paper 1

of social classes and its role in the economy and society. The article will argue that the middle class continues to play vital economic and political role, even though there has significant changes since globaliza- tion,

Online Library 2013 Dse Econ Paper 1

especially in the developing countries. The current economic complexity has become centre of attention for economic sociologists. Consequently, Karl Polanyi's concept of "(Dis)embeddedness". Gülden

Online Library 2013 Dse Econ Paper 1

Dursun's paper will argue that the capitalist mode of production and distribution is within the field of economic system. Hence, as Polanyi argues the economy is immersed in social relations, i.e., it is not outside of this or

Online Library 2013 Dse Econ Paper 1

independent. Sema Yılmaz Genç will investigate Ibni Khaldun's economic contribution and his relevance in the contemporary globalized world. It will demonstrate that even though his work was articulated seven

Online Library 2013 Dse Econ Paper 1

centuries ago, it continues to influence the modern academic literatures. Hilal Yıldız and Keremet Shaiymbetova investigate the relationship between in- come inequality and economic growth through

Online Library 2013 Dse Econ Paper 1

empirical studies of BRIC (Brazil, Russia, India, China) countries. Employing The Kuznets Curve they show in the latter stages of development, transition from agriculture towards industrialisation will lead to a

Online Library 2013 Dse Econ Paper 1

change in the direction of income – inequality relation. In the first stage, with an increase in income, inequality will increase, but in the latter stages of industrialisation, with increasing income, the inequality level will

Online Library 2013 Dse Econ Paper 1

decrease. Figen Büyükkakın, focuses on credibility of Central Bank of Republic of Turkey to identify the importance of reliability in the effectiveness of monetary policy. In the event that macroeconomic dynamics are

Online Library 2013 Dse Econ Paper 1

out of balance in an economy, monetary policies cannot provide sufficient confidence or control inflation. Therefore, possessing credibility for policy makers is vital in order to solve problems. She assesses CBRT's credible

in the last decade. Zişan
Kılıçarslan assesses the
importance of inflation targeting
strategy in the Turkish economy.
Using the Chow and Quant-*

Andrews structural break tests, she determined that the inflation targeting strategy applied in Turkey since 2002 had caused a structural break on the determined basic macroeconomic variables such

Online Library 2013 Dse Econ Paper 1

as the consumer price index, exchange rate basket, budget deficit/GDP ratio, current deficit/GDP ratio and GDP growth ratio. The inflation targeting strategy is used with the aim of creating sustainability and

Online Library 2013 Dse Econ Paper 1

permanence in price stabilization while fighting against inflation in the 1990's. İsmail Şiriner and Keremet Shayimbetova demonstrate the impact of globalisation on the Great Financial Crisis of 2008 and the

Online Library 2013 Dse Econ Paper 1

financial stability. By focusing on CBRT's monetary policy approaches since the 2007 crisis, they argue that the financial stability of the system requires an effective monetary policy for the stability of the

Online Library 2013 Dse Econ Paper 1

economy as a whole. Murat Aydın, looks at the role of state in local development in the period after globalization in Turkey. With the 2008 economic crises, expansion of service industries, structural unemployment, and

Online Library 2013 Dse Econ Paper 1

decentralization have increased the responsibility of local development agencies. The state has continued to be the major actor, but working alongside of the local agencies; they have been responsible to regulate and

Online Library 2013 Dse Econ Paper 1

implement policies to suit the market. Mustafa Doğan also looks at the local development issue, yet assessing the role of ecomuseums in Turkey. Whilst the principles of sustainable local development are now widely

Online Library 2013 Dse Econ Paper 1

implemented across the world, at the same time are protecting cultural and natural assets. The article will provide an overview on ecomuseums: that they are focused on a specific place or 'territory', and on the relationship

Online Library 2013 Dse Econ Paper 1

between the population and their environment, culture and local history. He will argue that ecomuseums have been utilized as a major means of promoting sustainable development in many rural areas of the world by

Online Library 2013 Dse Econ Paper 1

conserving natural, historical and sociocultural resources of a locality, whilst recognising a place's potential to provide low-level tourism and economic/social opportunities.

The empirical work of the paper

Online Library 2013 Dse Econ Paper 1

is based on ecomuseum and social-economic development in Boğatepe village, in the province of Kars in Turkey. One of the consequences of globalisation is migration and gender as it is becoming a major

Online Library 2013 Dse Econ Paper 1

socioeconomic study. The feminisation of migration as defining the number of women at international labour migration, has been increasing in recent years. Nilay Etiler and Kuvvet Lordođlu will assess the health

Online Library 2013 Dse Econ Paper 1

problems of recent female migrants. They will argue that women migrants, are mostly employed in jobs that are appropriate to their gender roles such as housework or childcare. Whilst, the health of migrants as

Online Library 2013 Dse Econ Paper 1

a whole deteriorate because of poor living and working conditions, the female workers suffer more, especially in the area of mental health. Ayhan Orhan focuses on the property rights of natural Resources in a

Online Library 2013 Dse Econ Paper 1

globalised world. He examines the rapid change of natural resource distribution in since the 1990's, which has added a new dimension to the concept of property rights. Hence, he argues that natural resources and

Online Library 2013 Dse Econ Paper 1

property rights could not be treated independently from Multi National Companies or the states. As a last contributor of this volume of globalization, Farhang Morady argues that Iran's strategy to balance

Online Library 2013 Dse Econ Paper 1

between the US on the one hand, and China, Russia and India on the other, was a failure.

According his determinations, the end of the Cold War and the emergence of new independent republics in Central Asia offered

Online Library 2013 Dse Econ Paper 1

*Iran the opportunity to become a vital actor in the geopolitics of the region. Iran was seen as a possible corridor between Central Asia, the Persian Gulf, and the Indian Ocean Region (IOR).
Struggling against US policy of*

Online Library 2013 Dse Econ Paper 1

strategic isolation, Iran made concerted efforts to break out of it by cultivating closer ties with non-Western powers. It used diplomacy, energy, and trade for the purpose of balancing its foreign relations. His paper will

Online Library 2013 Dse Econ Paper 1

assess the strategic ambitions of Iran as a regional power and the degree of its success in combating Western imposed sanctions and the US military threat over the disputed nuclear programme. This 'balancing

Online Library 2013 Dse Econ Paper 1

against the West' was the dominant approach during the Conservative presidency of Mahmoud Ahmadinejad. In the paper he figures out that it reflects a changed approach to serving Iran's interest by working

Online Library 2013 Dse Econ Paper 1

with, and not against, the West. Due to nuclear détente, growing strategic convergence with the US in Iraq and Afghanistan, and the American shift in emphasis to the Pacific, Iran has an invaluable opportunity to re-

Online Library 2013 Dse Econ Paper 1

emerge as a crucial member in the Indian Ocean Region. We hope this addition of globalisation will provide some ideas to inspire academics and students not only to hat the world is facing, but some solutions as well.
