*"Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, Guns, Germs, and Steel chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.*

**Superb sourcebook of rare ornamentation includes meticulously detailed narrative and 400 illustrations depicting priceless brooches, necklaces, clasps, gold padlock, reliquary pendants, much more.**

**The most comprehensive book of enameling and enameling techniques has been completely revised to bring you this essential new reference. The wonderful world of enameling—fusing glass to metal under high-temperature conditions-- is diverse! Practically anything made from enamel-friendly metal can be enameled, from vases to jewelry to buttons to metal mesh and solid forms. In the first edition, published in 2002, Cohen explored this world as it was then, but so much knowledge has been gained in the last 17 years that it was definitely time for an update! Every chapter and project has been completely reviewed, revised, and updated; it's a whole new book, and one you will want in your reference library. The look and organization is updated, 15 years of experience has been added, about half the projects have changed, and two types of mini-projects to expand your learning experience are included. In addition, each project has a gallery of the work of other artists working in the same technique, to give a view of other ways a technique can look and be used. Classic techniques such as champlevé, cloisonné, and plique-à-jour each have projects, as do newer approaches such as the use of graphite pencil and enameling on steel—21 project lessons in all. And you will find the extensive troubleshooting chapter indispensable.**

**Jewellery is one of the oldest forms of decorative art: its history can be traced from the earliest known civilizations in Mesopotamia and Egypt. This book reveals the varied styles, techniques and materials which have delighted men and women through the ages, all over the world. From Egyptian necklaces to Celtic torcs, and from Renaissance pendants to Art Nouveau buckles, 7000 years of jewellery design and production are illustrated in this book.**

**Now available in a new edition, this opulent book reaches back 25,000 years to trace the history of jewellery from the Paleolithic Era to the present day. Drawn from the extensive holdings of the Staatliche Museum in Berlin, this collection of jewelry through the ages links cultures and eras to show how the design, wearing, and collecting of personal adornment has evolved over the ages. Many of these beautiful pieces are presented for the first time in book form. They range from classic items such as necklaces, rings, and earrings to less common items with origins in non-European cultures. The book features jewelry ranging from the splendid crowns of Ancient Greece, golden earrings from Babylon, and jeweled collars worn by 13th-century Islamic royalty, to more modern pieces, such as those contained in the imperial collection of Queen Louise of Prussia, Art Nouveau jewelry designed by Rene Lalique and samples from the house of Bulgari. This chronologically arranged survey includes numerous brief essays and nearly 400 illustrations with detailed captions, making it an ideal reference for anyone interested in cultural history, the history of jewellery, or the art and craft of jewellery making.**

An ambitious, lavishly illustrated survey of the most valuable of precious gems

An international survey of rings throughout history features lavish photographs of a wide variety of ring types, in a thematically arranged volume that showcases signet, commitment, ecclesiastical, and other ring forms, from ancient Egypt through the twentieth century.

Renaissance jewels are among the most alluring manifestations of an age that experienced the widening of horizons, from the Old World to the New. This volume overflows with luxurious imagery expressing the boundless creativity and spirit of the Age of the Renaissance. Yvonne Hackenbroch relates the tales of the jewels, the artists, and the patrons who commissioned them.

What is a cabochon? What are the various types of gilding? What is vermeil? This accessible book—the first of its kind—offers concise explanations of key jewelry terms. The fascination with personal adornment is universal. It is a preoccupation that is primal, instinctive, and uniquely human. Jewelry encompasses a seemingly endless number of ornaments produced across time and in all cultures. The range of materials and techniques used in its construction is extraordinary, even revolutionary, with new substances and methods of fabrication added with every generation. In any given society, master artisans have devoted their time, energy, and talent to the fine art of jewelry making, creating some of the most spectacular objects known to humankind. This volume, geared toward jewelry makers, scholars, scientists, students, and fashionistas alike, begins with a lively introduction that offers a cultural history of jewelry and its production. The main text provides information on the most common, iconic, and culturally significant forms of jewelry and also covers materials, techniques, and manufacturing processes. Containing more than eighty color illustrations, this guide will be invaluable to all those wishing to increase their understanding and enjoyment of the art of jewelry.

**From the president of the National Jewelry Institute comes the largest collection of the oldest jeweled objects ever assembled. With sparkling photography and history throughout, the book will be supported by a major exhibit of the collection. These gorgeous artifacts—the oldest jeweled armor, weapons, jewelry, household objects, and more, with informative captions and stunning photography on every page—originated in Mesopotamia, Persia, Levant, the Byzantine Empire, and the Islamic world, from 4000 B.C.E. through 700 C.E. Artifacts appearing in the book are being lent to the exhibit by almost every major permanent collection of ancient objects in the world: jeweled treasures from the Louvre, the Berlin Museum, the Islamic collection at the Metropolitan, the Princeton Museum, and the Israeli Museum are shown together for the first time. Also included are interviews with major scholars and curators from around the world, speaking on ancient civilizations and the remaining artifacts that reveal their truly stunning cultures.**

**Fulco di Verdura was one of the outstanding jewelers of the 20th century. Patricia Corbett expertly analyses and evaluates Verduras jewelry designs in this lavish monograph, which is newly available in paperback. Wonderful colour photography of the jewelry, as well as atmospheric historical photographs of the celebrities who were his ardent fans, vividly trace his development over more than 25 years of feverish activity and show the great range and irresistible glittering beauty of his highly original pieces.**

**Wax carving is like sculpture for jewellery and allows enormous creativity, as so many different forms can be made. This practical guide introduces the techniques to this age-old method through a series of guided exercises and projects, and demonstrates how exciting it can be. Drawing on the experience of two master wax-carvers, it also gives invaluable advice on the finish of your cast pieces and how to reproduce them. With over 400 colour photos, it give advice on setting up for wax carving, tools, tool-making and materials. There are exercises that introduce the beginner to using wax and then build ideas and confidence to try more complex designs. Included are advanced techniques that show how to use stones in a carving and how to add texture and surface detail. Finally, finished examples demonstrate the potential, excitement and versatility of the method.**

**Georgian Jewellery is a celebration of the style and excellence of the eighteenth century, and of the ingenuity that produced such a wealth of fabulous jewellery. Heavy academic tomes have already been written about the period, but this book examines it in a more colourful and accessible way. The book aims to show that Georgian jewellery is not only the stuff of museums and safe boxes, but that it can be worn as elegantly and fashionably today as it was 200 years ago. Much disparate information about the jewellery has been gathered together and the period is brought alive by portraits and character sketches of famous Georgians in their finery, fashion tips, gossip, and some rather outrageous cartoons of the time, as well as fascinating recently discovered facts. With information on how to identify, buy and repair pieces, this sumptuously illustrated volume contains the largest single catalogue of 18th Century jewellery. AUTHORS: Ginny Redington Dawes, a life-long collector of antique jewellery, has written two previous books on the subject - The Bakelite Jewellery Book and Victorian Jewellery. Staff writer for MGM Screengems Music, she is also a successful composer; she wrote the book, music and lyrics for the off-Broadway show The Talk of the Town and has won a CLEO award for music for advertising. Olivia Collings became fascinated by the seventeenth century alchemist and jeweller Christopher Pinchbeck at an early age and bought her first piece of antique jewellery aged seven. She trained in an exclusive Bond Street antique jewellery shop before starting her own business in 1975 and has continued learning about and dealing in Georgian jewellery ever since. She is now an independent**

A tribute to the jeweler's art showcases examples of precious earrings covering every period and style, from the classic Greek, through diamond and emerald girondoles, to the neoclassical discs popular at the end of the nineteenth century

A thorough reference to antique and period jewelry created over a 200-year period in Canada, Europe, the United Kingdom, and the United States. From the Georgian to Modern periods, the fascinating story of jewelry evolving with women's fashions is told. Great designers' findings, fittings, and maker's marks are fully explained.

This stunning, glamorously designed survey highlights the artistry, expertise, and inspiration behind the work of today's most fascinating and influential jewelry designers. Breaking out of the rarified world associated with fine jewelry is a set of contemporary designers who combine traditional skills with fresh vision, transforming artistic inspiration into wearable art. Boundless creativity and a sense of playfulness distinguish these jewelers from the pack, skills that result in pieces that are breathtakingly sophisticated and deeply rooted in each designer's singular aesthetic. Focusing on seventeen modern masters from around the world, *Jeweler* reveals the unique ideas, intricate processes, and inspiration that go into their work. Curated by Stellene Volandes, editor-in-chief of *Town & Country*, *Jeweler* introduces readers to designers like the Hemmerles, a jewelry dynasty known for molding materials like copper and aluminum into one-of-a-kind collectibles; Wallace Chan, the Hong Kong wizard of stones whose patented techniques dazzle the mind as well as the wearer; Elena Votsi, an Athens jeweler who remade the Olympic medal, and whose bold metallic pieces are like wearable sculptures; and Lauren Adriana, a London wunderkind poised to become the master of her generation. Through Volandes's vivid profiles and breathtaking images of each jeweler's work, readers are immersed in the passion and craft that make each one a visionary. *Jeweler* is a stunning portrait of this fascinating niche of design, anointing the designers of today who are making the collectibles of the future.

The fragile beauty of glass has ensured its popularity through the ages in forms ranging from simple beakers to ornate decorative masterpieces. This book traces the history of glass from its origins in western Asia some 5,000 years ago, though the invention of glass blowing around the first century B.C., to the introduction of mechanized processes and new styles in the nineteenth and twentieth centuries. It highlights the flourishing industries of ancient Mesopotamia and Egypt, the elegant vessels of the Islamic Near East, the superb mastery of Renaissance Venice, and the wide-ranging experiments of modern Europe and America. A unique feature of the book is the series of photographic sequences especially taken in the studio of a modern glassmaker as he reconstructs ancient techniques; these are accompanied by a glossary of glassmaking terms.

This volume deploys both written (epigraphic, papyrological and literary) and archaeological (pottery, metalwork) evidence to cast new light on the economic, cultural and political contacts between Pontus and the Mediterranean world in the archaic, classical, Hellenistic and Roman periods.

Jewelry holds a special significance in all cultures The jewelry worn in medieval Europe was important as an indicator of the wearer's social status and wealth, faith and superstition, allegiances and literacy. This stunning book draws on the major collection at the V&A to focus on the heart of the Medieval period from 1100 to 1500. Royalty and the nobility wore gold, silver, or precious gems, while humbler ranks wore base metals, copper or pewter, sometimes set with colored glass, in imitation of gems. This richly illustrated book, one of very few on this subject, looks at the jewels themselves--rings, bracelets, necklaces, amulets, crosses and crucifixes--as well as contemporary portraits and sculpture to place the jewelry in its cultural context.

Jewellery Through 7000 Years

Looks at the history, technical developments, and aesthetic tradition of Indian jewelry.

Jewellery is one of the oldest forms of decorative art. This illustrated history reveals the varied styles, techniques and materials that have delighted men and women through the ages and all over the world.

Jewelry was one of the purest and most successful expressions of the Art Nouveau movement. Fresh designs and motifs created intense excitement as organic forms surged with new life, and the female form struggled towards freedom, suggesting a long-hidden eroticism. The artists and goldsmiths who created this jewelry were trained in the nineteenth-century disciplines; their technical mastery allowed them to experiment with new materials and enameling processes to indulge their fantasies. This combination - an atmosphere of ideas for a new art and the unrivaled technical skill of the makers - produced some of the most evocative jewelry of modern times. The book deals with major makers in France, and follows the parallel modern movement that spread through Europe and the United States, acquiring different decorative characteristics, from Great Britain, Germany and Austria, to Belgium, Scandinavia and Eastern Europe. Comprehensive biographies of over 300 designers are included, as well as a Guide to Identification, with over 200 makers' marks and signatures.
