The New York Times bestseller from the author of The Order of Time and Reality Is Not What It Seems and Helgoland “One of the year’s most entrancing books about science.”—The Wall Street Journal “Clear, elegant...a whirlwind tour of some of the biggest ideas in physics.”—The New York Times Book Review This playful, entertaining, and mind-bending introduction to modern physics briskly explains Einstein’s general relativity, quantum mechanics, elementary particles, gravity, black holes, the complex architecture of the universe, and the role humans play in this weird and wonderful world. Carlo Rovelli, a renowned theoretical physicist, is a delightfully poetic and philosophical scientific guide. He takes us to the frontiers of our knowledge: to the most minute reaches of the fabric of space, back to the origins of the cosmos, and into the workings of our minds. The book celebrates the joy of discovery. “Here, on the edge of what we know, in contact with the ocean of the unknown, shines the mystery and the beauty of the world,” Rovelli writes. “And it’s breathtaking.” Light It Up!

George’s Secret Key to the Universe

In 1659, fourteen-year-old Mary Newbury keeps a journal of her voyage from England to the New World and her experiences living as a witch in a community of Puritans near Salem, Massachusetts.

I’m Jack Lewis, a successful businessman. What makes me different is that I don’t have any worries, anxieties, or skeletons in my closet. But I do have a regret: I don’t have a woman by my side with whom I could share my success, my money and my life. I once thought I had found her, the right woman, but then, on a rainy day, all my certainties collapsed. Since then I have no longer thought about love, because I’m pretty sure it doesn’t exist. This morning I’ve been hit by a little tornado: a woman fell into my arms, our eyes met, my heart stopped beating for an instant, and my certainties crumbled again. I don’t know if I’m willing to give love another chance, but I’m sure I won’t let this little tornado slip away. Jack’s advice: I swear a lot, plus, I like sweaty and dirty sex, and if this bothers you, this story is not for you.

The #1 New York Times bestseller by Time’s 2019 Person of the Year “Greta Thunberg is already one of our planet’s greatest advocates.” —Barack Obama The groundbreaking speeches of Greta Thunberg, the young climate activist who has become the voice of a generation, including her historic address to the United Nations In August 2018 a fifteen-year-old Swedish girl, Greta Thunberg, decided not to go to school one day in order to protest the climate crisis. Her actions sparked a global movement, inspiring millions of students to go on strike for our planet, forcing governments to listen, and earning her a Nobel Peace Prize nomination. No One Is Too Small to Make A Difference brings you her own words, for the first time. Collecting her speeches that have made history across the globe, from the United Nations to Capitol Hill and mass street protests, her book is a rallying cry for why we must all wake up and fight to protect the living planet, no matter how powerless we feel. Our future depends upon it.

In this quirky yet sweet picture book about the joy and power of reading, Duck learns that even books without pictures can be fun. While he and his friend Bug may struggle at first to decipher their book, they stick with it, and before long they discover that not only can they read it, but it deserves a place on the shelf with all their favorite picture books. Author-artist Sergio Ruzzier has created a fanciful tribute to books of all kinds. It includes both words AND pictures. And because this is the fixed-format version, i

Corban Addison’s debut novel, A Walk Across the Sun, made waves when it was first published, called “pulse-rvving with a serious message,” by O, the Oprah magazine. John Grisham said, “Addison has written a novel that is beautiful in its story and also important in its message. A Walk Across The Sun deserves a wide audience.” A trained lawyer committed to the cause of advancing international human rights and abolishing modern slavery, Addison has written a novel that enlightens while it entertains; A Walk Across passions—storytelling, human rights, and the world’s many cultures. Anahya Ghai and her younger sister Sita are as close as sisters can be. But when a tsunami rips through their coastal village, their home is swept away, and the sisters are the sole survivors of their family. Destitute, their only hope is to find refuge at a convent many miles away. A driver agrees to take them. But the moment they get into that car their fate is sealed. The two sisters--confused, alone, totally reliant on each other--are sold. On the ot

Fernando Pessoa is Portugal’s most important contemporary poet. He wrote under several identities, which he called heteronyms: Albet Caeiro, Alvaro de Campos, Ricardo Reis, and Bernardo Soares. He wrote fine poetry under his own name as well, and each of his “voices” is completely different in subject, temperament, and style. This volume brings back into print the comprehensive collection of his work published by Ecco Press in 1986.

First published in 1943, The Little Prince by Antoine de Saint-Exupéry has been translated into more than 250 languages, becoming a global phenomenon. The Sahara desert is the scenery of Little Prince’s story. The narrator’s plane has crashed there and he has scarcely some food and water to survive. Trying to comprehend what caused the crash, the Little Prince appears. The serious blonde

little boy asks to draw him a sheep. The narrator consents to the strange fellow’s request. They soon become friends and the Little Prince informs the pilot that he is from a small planet, the asteroid 325, talks to him about the baobabs, his planet volcanoes and the mysterious rose that grew on his planet. He also talks to him about their friendship and the lie that evoked his journey to other planets. Often puzzled by the grown-ups’ behavior, the little traveler becomes a total and eternal symbol of innocence and love, of responsibility and devotion. Through him we get to see how insightful children are and how grown-ups aren’t. Children use their heart to feel what’s really important, not the eyes. Heart-breaking, funny and thought-provoking, it is an enchanting and endlessly wise fable about the human condition and the power of imagination. A book about both childhood and adulthood, it can be read as a parable, a war story, a classic children’s fairy-tale, and many more things besides: The Little Prince is a book for everyone: after all, all grown-ups were children once.

Three friends, their schoolgrounds, a secret. And fifteen years later, the discovery that they all thought there was only one secret, but each had their own. And there was one more, bigger than the others, that none were aware of. This is Zerocalcare’s second graphic novel, the one that made him stand out as an intelligent, delicate, merciless narrator when it comes to describing his own

weaknesses, which may be everyone’s. A complete story in three parts at different times in the coming of age of young Calcare; three moments that have in common the all-too-familiar feeling of having tentacles at the throat.

Poems of Fernando Pessoa

A prize-winning international classic, first published in English in 1993, now with a new foreword by William Boyd.

Film tie in edition of Alan Bennett’s classic memoir. For fifteen years, the recalcitrant Miss Shepherd lived in her broken-down van on Alan Bennett’s driveway in Camden. Deeply eccentric and stubborn to her bones, Miss Shepherd was not an easy tenant. Bennett, despite inviting her in the first place, was a reluctant landlord, never under the illusion that his impulse was purely charitable. This account of those years was first published in 1989 in the London Review of Books. The play premiered in 1999, direct by Nicholas Hytner and starring Dame Maggie Smith.

Shot on location at Bennett’s house, Alex Jennings plays the author, alongside household names including James Corden, Frances de la Tour, Jim Broadbent and Dominic Cooper.

While on summer vacation at the seaside, twelve-year-old Irene Adler meets the young Sherlock Holmes, and his friend Arsène Lupin--and when a dead body floats ashore the three young friends set out to solve the mystery.

Isaac Bashevis Singer is known for his mastery of storytelling – but it was not until 1966, at the age of sixty-two, that he published his first children’s book, Zlatch the Goat, a Newbery Honor Book and instant classic. Singer went on to write many stories for children, most of which are included in this volume, along with a brief introduction and a special epilogue, “Are Children the Ultimate Literary Critics?” The collection presents exuberant and timeless tales for children rich in fantasy and deeply rooted in the lost cultural tradition of his native Poland. A number of the stories appear in book form for the first time – and all have been translated from the Yiddish with the author’s personal supervision.

Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985–86, but they were left unfinished at his death. The surviving drafts explore of the concepts of Lightness, Quickness, Multiplicity, Exactitude and Visibility (Constancy was to be the sixth) in serious yet playful essays that reveal Calvino’s debt to the comic strip and the folktale. With his customary imagination and grace, he sought to define the virtues of the great literature of the past in order to shape the values of the future. This collection is a brilliant précis of the work of a great writer whose legacy will endure through the millennium he addressed. Italo Calvino, one of Italy’s finest postwar writers, has delighted readers around the world with his deceptively simple, fable-like stories. Calvino was born in Cuba in 1923 and raised in San Remo, Italy; he fought for the Italian Resistance from 1943–45. His major works include Cosmocomics (1968), Invisible Cities (1972), and If on a winter’s night a traveler (1979). He died in Siena in1985, of a brain hemorrhage.

"A mastery book" —Nassim Nicholas Taleb, author of The Black Swan "A classic" —Simon Kuper, Financial Times An economist explains five laws that confirm our worst fears: stupid people can and do rule the world Throughout history, a powerful force has hindered the growth of human welfare and happiness. It is more powerful than the Mafia or the military. It has global catastrophic effects and can be found anywhere from the world’s most powerful boardrooms to your local bar. It is human stupidity. Carlo M. Cipolla, noted professor of economic history at the UC Berkeley, created this vitally important book in order to detect and neutralize its threat. Both hilarious and dead serious, it will leave you better equipped to confront political realities, unreasonable colleagues, or your next dinner with your in-laws. The Laws: 1. Everyone underestimates the number of stupid individuals among us. 2. The probability that a certain person is stupid is independent of any other characteristic of that person. 3. A stupid person is a person who causes losses to another person while deriving no gain and even possibly incurring losses themselves. 4. Non-stupid people always underestimate the damaging power of stupid individuals. 5. A stupid person is the most dangerous type of person.
