

How To Find Private Money Lenders For Your Real Estate Investing Deals: A Step By Step Automated Online System That Builds A Huge List Of Ready To Go Wealthy Investors

In the world of real estate, there is more than one way to obtain the money you need to complete a transaction. Traditional lending may work for some investors, but for others, going to a bank is simply not an attractive or viable option. This book will explain how to get the money you need without going through a bank. Private money lending, also known as storybook lending, may provide the answer you need. We decided to write this book because we realized that few borrowers understand how to put together a private money deal. Many borrowers don't do enough on the front end of the transaction, and as a result, they find themselves floundering and unsure of how to proceed. This will usually result in losing a deal due to lack of funding. The more that you do at the front end of the transaction to ease the way and demonstrate your expertise to a private money lender, the easier and quicker a private money lender will be able to fund your transaction. Considering that some real estate deals hinge on being able to put together financing quickly, that's a big selling point for investors. The goal of this guide is to help you, as a borrower, learn the ins and outs of putting together a private money lending deal so that you can: 1. Approach private lenders with confidence 2. Eliminate the need to hire a private money broker 3. Save on broker's commission 4. Put together a compelling package for presentation to a private money lender 5. And most importantly, get more deals funded! If you follow the steps laid out in this book, you'll be in the best possible position to close on a deal, get the funding you need, and make money.

Looking to become a successful Real Estate Investor in your market? I have gathered 32 true real life success stories of investors all over the states. They will share with you how they overcome their challenges, struggles and close the deals. They also share how much they made on the deal and picture of their check. Everyone's story is different, but you will find ideas, tips, marketing and negotiation strategies that will help open up your awareness and let you see more opportunities in your market. After your done reading, you will find that you don't need lots of money or good credit to make money in real estate. I was pretty skeptical about it too when I first started, but trust me it's true. What you need is a desire and an open mind. I bought my first flip using bank money, rehab it and sold it for a net profit of \$50,000 in 3 months. It blew me away. I used to make \$30,000 a year working 8 hours a day. People are making 6 figures to millions of dollars wholesaling and flipping houses everyday in your market.

Investing in real estate is one of the smartest strategies to building wealth. With the proper foundation and knowledge, investing in real estate can be highly lucrative for anyone. Most investors struggle with fear when it comes to finding private money lenders, not knowing where or how to begin the process. One of the major goals of this book is to remove that fear and provide you the confidence and tools you need in order to find private money lenders, develop strong relationships with them, present a proper package and ultimately bring in the money to get your deals done. While there are plenty of real estate education groups and classes that provide instruction about investing in real estate and where to find properties, there are few (or at least, few good ones) that educate investors about (1) how to package a deal for presentation to private money lenders and (2) working with private money lenders and properly structuring the deals with investors in order to stay legally compliant. This book is intended to provide real estate investors the ultimate tool in working with private money lenders in order to get started in the real estate business, for beginners, or grow their business, for the more experienced real estate investors. Mitch can show you exactly why this is happening and how to stop it from happening by using a strategy that is less known and grossly misunderstood. The owner financing strategy changes everything! Change your property's value. Change your community for the better. Change your buyer's life, and change your personal financial situation in the process. All kinds of doors open when we stop using broken down traditional techniques and start thinking outside the box. And best of all, 90% of the deals are done with none of your own money! The strategies in this book are mind-blowing! Mitch believes that real estate investing is a tremendous strategy for acquiring wealth. He has helped new investors find their place; He has helped veteran investors re-invent themselves by BECOMING THE BANK! This book outlines conservative methods for reproducing the financial success created by experienced residential real estate investors. These are methods that anyone can use to improve their quality of life and level of financial freedom, regardless of their current life situation. By following the same steps that other successful investors have already taken we can reliably duplicate their success. The knowledge in this book can be applied to any business, not just real estate. The skills taught here are of great value to any entrepreneur. The book begins by discussing essential life skills and disciplines that must be developed before you begin in business. It will progress from basic real estate theory to creative strategies, and then it will teach you how to generate the leads necessary to implement those strategies. After learning the science of marketing to sustain lead generation, the book will teach you about modern sales and negotiation tactics, two commonly overlooked business skills. It will then show you how to successfully convert those leads into deals by taking them all the way to closing. Finally, it examines the use of corporate entities to protect your profits, and how to lend your earnings to other real estate investors if you choose a more passive role in the business. Not everyone will begin this read with the same level of knowledge, so for those just beginning your business pursuits it will be important to take the time to read the information at the beginning of the book that precedes the real estate discussion. Even if you have business or real experience, and are familiar with a particular topic, there is always more to learn, and I promise that even the seasoned pro will walk away with some new nuggets of wisdom. When I began educating myself, the materials I read lacked the structure that I desired, which was an organized high level overview of the most popular, the most reproducible, and the most consistent and efficient investment strategies. I was not looking for the quickest way to get rich, but rather I was looking for the most reliable way to get rich. I wanted to know which methods returned the most value with the least amount of time. Most importantly, I was looking for strategies that would generate income that would replace what I earned at my 9 to 5 job. I suspect that this is what you are looking for as well. Only a few of the transactions that I explain will be examples, and the majority of the transactions shown are real life deals that I have actually completed. There is no exaggeration or embellishment. This is truly a non-fiction book. However, some names and most addresses have been changed for privacy. It is important to note that the property values that we discuss may differ greatly from your region. While you may need to add another zero (or two) for your specific market, you more than likely can apply the same rules and formulas that we discuss. Do not be shocked by the low purchase prices mentioned. They are a product of both buying far below market value and relatively low median home prices in my region during the previous decade. While the values differ in every region, the formulas for success remain the same.
