Discover the world's most incredible things that go with specially commissioned LEGO® models. Children will love learning about their favorite modes of transport, including airplanes, trains, boats, cars, and even futuristic and fantasy vehicles. LEGO® Amazing Vehicles is packed full of fascinating facts and images of more than 100 models of cool things that go. Best of all, it comes with 61 bricks to build four exclusive LEGO mini-vehicles! Colorful scenes showcase fan-built LEGO vehicle models accompanied by fascinating facts, data, and record-breaking information about the machines. From trains and tractors to aircraft, spacecraft, and automobiles, this book showcases every kind of machine that moves—from past to present, and far into the future. Timelines featuring micro-build models drive readers through the history of transport. The models are built with mostly standard bricks. Tips and photographic breakdowns will inspire children aged 7-9 to build their own LEGO vehicles. A combination of clear photos, authoritative text, fun facts, and classic LEGO humor help children learn as they build and play. ©2020 The LEGO Group.

Build 11 machines, includes all the LEGO bricks you need. From the 'practical' (a mechanical hand to pick things up for you) to the intriguing (a machine that makes crinkled paper) to the flat-out ridiculous (astronaut training for your mini-figures!), these projects encourage kids to explore the possibilities hidden in their LEGO collection. Inspires open-ended creativity to not just build the models in this book, but also to experiment with their own modifications to be faster, more accurate, or more complex. Put a little wiggle into your shower routine! Everything you need to make up to 12 jellies comes in the box, including a custom mold with six fun shapes. Add colour tablets and glitter to make each jiggling jelly your own. Lather your soap jelly into an exfoliating DIY bath pouf for the full spa experience!

be on your way to building and programming BOOST robots in no time. You'll begin your exploration by building a basic rover robot called MARIO to help you learn the fundamentals of the BOOST programming environment. Next, you'll add features to the rover to control its movement and make it repeat actions and react to colors and sounds. Once you've learned some programming basics, you'll learn how to program your robots to do things like follow lines on the ground, scan its environment to decide where to go, and even play darts. As final projects, you'll create two complete robots: BrickPepper, which helps you organize your bricks, and CYBOT, a robot that talks, shoots objects, and executes voice commands. As you advance through the book, optional lessons aim to deepen your understanding of basic robotics concepts. Brain BOOSTer sections let you dig into the math and engineering behind your builds while a host of experiments and challenges test your skills and encourage you to do more with your robots. With countless illustrations, extensive explanations, and a wealth of coding examples to guide you, the LEGO BOOST Activity Book is sure to take you from beginning builder to robotics expert and give your robot-building brain that needed boost!

BrewDog's first beer book is a brilliant intro to the world of craft beer. It includes a look at what makes craft beer great and how it's made, explains how to understand different beer styles, how to cook with beer and match beers and food, right through to

how to brew your own at home. It's not just about BrewDog's beers either - plenty of other excellent breweries and their beers from around the world are featured. This book is both a window into the BrewDog world and a repository of essential craft beer information. Designed in the highly individual style of the brand, the book also includes quirky features such as spaces to place your drop of beer once you've ticked a particular beer off your 'to-drink' list and pull-out beer mats.

Offers a catalog of never-before-seen contraptions that are equal parts brilliant, useful and ridiculous, including a helium filled hide-a-bed and a tricycle-lawnmower, among other inventions that are intended to spark innovative thinking.
