During that interview Carnegie slyly dropped a hint of certain master power he used; a magic law of the human mind - a little known psychological principle - which was amazing in its power. Carnegie suggested to Hill that upon that principle he could build the philosophy of all personal success - whether it be measured in terms of Money, Power, Position, Prestige, Influence, or*

*Accumulation of Wealth. That part of the interview never went into Hill's magazine. But it did launch the young author upon over 20 years of research. And today we open to YOU the discovery and methods of using the revolutionary force which Carnegie quietly hinted at. The thrilling methods of using it are now taught in eight textbooks known as the LAW OF SUCCESS. In the trail of the LAW OF SUCCESS lessons come accomplishments, not mere entertainment and time-killing diversion. There come larger businesses, bigger bank accounts, fatter pay envelopes; small enterprises given new life and power to grow; low-pay employees shown how to gain advancement by leaps and bounds. Think and Grow Rich is Napoleon Hill's newest book, based upon his famous LAW OF SUCCESS philosophy. His work and writings have been praised by great leaders in finance, education, politics, and government.*

Upon it was built a success philosophy that explains how human desires can be translated into material reality, a framework that rests upon the power of thoughts to seek expression in physical form. Through this singular concept, the world's wealthiest and most successful individuals--rich in money, relationships, power, peace of mind, and social standing--have built and maintained their prosperity. It is the foundational principle of Napoleon Hill's Science of Success program, an achievement philosophy that effectively helped end the Great Depression and that has since made more millionaires, cultural icons, and thought leaders than any other. Hill was born in 1883 in a one-room cabin on the Pound River in Wise County, Virginia. He began his writing career at age thirteen as a mountain reporter for small-town newspapers. In 1908, as a young special investigator for a nationally known business magazine, he was sent to interview the great steel magnate Andrew Carnegie. During that interview, Carnegie shared the secrets that had enabled him to acquire hundreds of millions of dollars--a magic law of the human mind, a little-known psychological principle that was amazing in its power. If you learn and apply the simple basic techniques revealed here, you will have mastered the secret**

of true and lasting success—and you may have whatever you want in life!

What if everything you know about raw talent, hard work, and great performance is wrong? Few, if any, of the people around you are truly great at what they do. But why aren't they? Why don't they manage businesses like Jack Welch or Andy Grove, play golf like Tiger Woods or play the violin like Itzhak Perlman? Asked to explain why a few people truly excel, most of us offer one of two answers: hard work or a natural talent. However, scientific evidence doesn't support the notion that specific natural talents make great performers. In one of the most popular Fortune articles in years, Geoff Colvin offered new evidence that top performers in any field - from Tiger Woods and Winston Churchill to Warren Buffett and Jack Welch - are not determined by their inborn talents. Greatness doesn't come from DNA but from practice and perseverance honed over decades. And not just plain old hard work, but a very specific kind of work. The key is how you practice, how you

analyze the results of your progress and learn from your mistakes, that enables you to achieve greatness. Now Colvin has expanded his article with much more scientific background and real-life examples. He shows that the skills of business - negotiating deals, evaluating financial statements, and all the rest - obey the principles that lead to greatness, so that anyone can get better at them with the right kind of effort. Even the hardest decisions and interactions can be systematically improved. This new mind-set, combined with Colvin's practical advice, will change the way you think about your job and career - and will inspire you to achieve more in all you do.
