This is a memoir presented in an anthological - like format; in other words, a collection of short stories, on the life of the author. It starts when he was growing up in the Philippine countryside of Ilocos Sur province. Just like a normal kid, he played with his friends, did crazy things, went to school and moved to Manila, for his college education. He got married while in fifth year college, but still graduated on time. This book relates his struggles, failures, as well as successes, including his coming to America. Searching for the American Dream was no picnic either, but with perseverance, he achieved some of them in modest ways. Foreigners planning to immigrate to the great ol' USA could get glimpses, on what it takes, to come and live in America.

Technology has invaded our working and recreational lives to an extent that few envisaged 20 or 30 years ago. We'd be fools to avoid the developments in personal, mobile, and wearable technology. Even if we tried we'd still have to deal with other developments and distractions in classroom and learning technology like smart boards, blogs, video, games, students-led learning, virtual learning environments, social media, etc. More than this, however, is how the advances in technology, the economic and physical miniaturisation of computing devices, have impacted education: the students, the teachers, the classrooms, the spaces, the connections, the aspirations, etc. 'The Really Useful #EdTechBook' is about experiences, reflections, hopes, passions, expectations, and professionalism of those working with, in, and for the use of technology in education. Not only is it an insight into how, or why, we work with these technologies, it's about how we as learning professionals got to where we are and how we go forward with our own development. In this book respected individuals from different education sectors write about many aspects of learning technology; from Higher Education (Sue Beckingham, Peter Reed, Dr David Walker, Sheila MacNeil, Terese Bird, Wayne Barry, Inge de Waard, and Sharon Flynn), Further Education (Rachel Challen), to Museums (Zak Mensah), workplace learning (Julian Stodd, Julie Wedgwood, and Lesley Price) and primary schools / early years education (Mike McSharry). With a foreword written by Catherine Cronin, from the National University Ireland, Galway, the breadth and depth of the experiences here are second to none. The knowledge these leading learning practitioners, researchers, and professionals, share, under the same cover, is a unique opportunity for you to read about the variety of approaches to learning technology, the different perspectives on the same technology, and how technology is impacting our culture and learning infrastructure, from early-age classrooms to leading research Universities and from museums and workplace learning providers. It is about our passion for our work and our desire to make our work better through our own learning and development. Contributory authors:

Charged with action and suspense, yet profoundly spiritual, Kim vividly expresses the sounds and smells, colors and characters, opulence and squalor of complex, contradictory India under British rule. The book abounds in brilliant descriptions of Indian scenes and deeply sympathetic portraits of her people. Long recognized as Kipling's finest work, Kim was a key factor in his winning the Nobel Prize for Literature in 1907. This new edition of Kipling's classic novel includes the biographical essay Who was Rudyard Kipling?

As Ruben Wells kneels with a gun pointed at his head all he can do is reflect on the life he spoiled. What has led him here? Was it his willingness to always try to do the right thing that has him staring at the barrel of a gun? Or was that he was too much of a people pleaser having a hard time saying no that has led to him begging for his life? Every thing begins and ends with a choice. The moment a choice is made it only takes a second for a life to change. Ruben made a choice to initiate a relationship with the alluring Bianca Jones. She makes heads turn and every man's dream. She is beautiful as a gazelle, but as dangerous as a lioness, as she's unavailable due to being unhappily married with children. Being married doesn't keep her from wanting to pursue Ruben as well as being pursued by him. Getting involved with Bianca changes Ruben's life in ways he never could have imagined. Choices are a gift constantly given to everyone. The choices made lead to different paths. We all have to choose this day what we're going to do with our own lives not knowing what the end result will be. What kind of impact will Ruben's choices have on his life?

Oh no! The big bad wolf is in London! But he is no match for these three little pigs! Staring a silly big bad Siberian Husky, the cleverest Guinea Pig this side of a hard hat, and famous London city landmarks, this version of the Three Little Pigs turns the classic children's story into a hilarious tale of London pride! Includes a write your own story activity especially for children ages 3-8 who are planning to visit, or who have recently visited, the great city of London! Looking for a different city? Search Dr. Silly Goose for more city-specific versions of The Three Little Pigs. Also available: Los Angeles, Chicago, Houston, Philadelphia, San Antonio, San Diego, Dallas, New York City, Jacksonville, San Francisco, Austin, Seattle, Denver, Washington DC, and Boston.

A devoted employee of the FIA (Federal Intelligence Agency), Eurian lives a comfortable and secure life, spanned with bureaucratic conflicts and desires for promotion. He will find himself thrust into an international conflict to track down and stop a subversive cyberterrorist movement. His desire for a foreign assignment will finally be met, but not in the way he expected. Assigned to Kerploueck, a sleepy village at the far edge of the world, he will be forced to let go of the comfort and stability of his previous lifestyle. With this temporary assignment, the complacent bureaucrat finds himself a spy-but with none of the excitement and adventure he had dreamed of. He now must find new objectives to survive this wholly uninteresting assignment. What happens to the FIA and to the success of the worldwide search for the subversive cyber-terrorists will slowly drift away from Eurian's mind. Interestingly enough, when this book was started, internet spying, hacking, and cyberterrorism were rhetorical discussions. Today, we live in a different reality. Truth and facts are not as important as swaying unmindful, gullible populations. George Orwell's "alternative facts" are common place and universally acceptable. With the ocean of information now accessible to anyone, individuals, organizations, and even governments are scrambling to control its sources and promulgate their agendas. This is the essence of "The Happy Fools." Following Eurian and his unanticipated quest for truth, many topics of modern society will be discussed. This book also serves as a compendium of the latest technologies, sciences, ideas and movements. Focusing primarily on the most pertinent latest developments, each providing hope and insights that could change our lives. The underlying prerequisite of being happy is to avoid stress and the unknown. Therein lies a potential philosophical issue. Shutting the doors to outside turmoil, to world problems and issues, is a good safeguard for happiness. Close-mindedness brings confidence, as the world's problems appear simple and the solutions two-sided. Inversely, knowledge creates a spirit of inquiry, a burning desire for more knowledge, spurring new questions that beg for answers, ultimately resulting in a loss of conviction and an understanding that we will never truly understand the world in its endless complexities. Do we choose closed-minded confidence, or a life dedicated to the pursuit of knowledge with the uncertainties, frustrations, and complexities that it yields?

The Creepers Saga

A child compares pets in this silly look at cats and dogs. "My cat can sleep. My dog can sleep. My cat can sleep on top of my dog." Simple sentences and whimsical illustrations are ideal for toddlers, preschoolers, and beginning readers.

In Living the Multiple Income Streams Dream, Ryan will explain the 3 main online business models and how to use them to build your own multiple streams of income.

The world is infected and humanity is reduced to creatures of vicious insanity. Doctor Thorn's rescue by a group of young survivors is just the beginning of their nightmarish journey to survive. In this apocalyptic landscape, humankind has one final hope that rests on the strength and determination of 10 young men and women.

The Reading With Giggles & Games Learn-To-Read System works in a dramatically effective way because it uses several proprietary learning strategies, in combination, that create an ideal learning state in the mind and body of the student. No other system combines these learning strategies in the same way and no other system has been able to demonstrate more effective learning results. The children are happier, they learn faster and their teachers and parents are amazed at how much more quickly these students learn to read than other students who are taught with other outmoded, traditional teaching methods. When you child starts to recognize letters, numbers and their associated sounds they are ready for the Reading With Giggles and Games program. This wonderful system can help you, as a parent, be much more effective in your mission to help your child to learn to read without the hassle and frustration that often accompanies the process with other traditional learn to read methods.

A Real Guide from Real Experts on Getting the Job You Want!

A Teacher Faces Layoff, Unemployment, and a Career Shift

Do you feel like you struggle to make time for everything? We are living in a time-poor society, working more than ever and with less time for ourselves and family. The pressures and stress of the obligations we feel we have, often leave us without time to do everything that we would like to. More critically, we lack the time to reflect, review our lives and consider our direction. Time to contemplate if the decisions we are making are going to lead us to a life of purpose or an old age filled with regret. Time for Anything is based on 5 years of research by Craig D Robinson. Using the techniques in this book, Craig went from working in an entry level position to, in just four years: start 2 companies, recharge with 12 weeks holiday a year, start a family, grow and sell his startups and retire at the age of 34. This book shows you how you too can have time for it all.

One morning, Emma decided she simply did not want to be a kid anymore. She didn't want an early bedtime or have to sit in the back seat of the car, or be interrupted for dinner while playing hide-and-seek with her friends, or be told that unless she ate her vegetables, she would never grow up. But what happens when Emma starts to be a grownup and do grownup things? " Great book, great story, great lesson. My kids ages 6 and 9 enjoyed the story. It made them realize that being a kid is fun" -- Daniel. "A wonderful lesson in living in the NOW and not growing up before it is time. This was such a delight to read and the way Ms Alony put it together was perfect!Great book with beautiful illustrations, and my little niece gave it five stars!"-- Author Joyce L. Mitchel. "Excellent vocabulary" -- Kindle Costumer. Maria Alony creates high-quality, illustrated children's books that are not only fun and entertaining, but also contain an educational message and important values. As a mom herself, Maria reads picture books every night so that bedtime stories become part of her child's routine. She believes that reading children's books every day, for kids ages 4-8, is essential for developing language, fostering imagination, and promoting self-expression. When it comes to children, Maria knows that books are vital. Join Emma in the new edition of the children's book series "Emma and Everything" on her journey of self- discovery. As she learns to appreciate and love her life as it is, she discovers the beauty of being a kid. Scroll back up and and grab your copy now! This fully-illustrated picture book is a great read aloud for preschool children and is highly recommended as a self-read book for beginner readers as well.

'Other' Spanish Theatres challenges established opinions on modern Iberian theatre through a consideration of the roles of contrasting figures and companies who have impacted upon both the practice and the perception of Spanish and European stages. In this broad and detailed study, Delgado selects six subjects which map out alternative readings of a nation's theatrical innovation through the last century. These six subjects include Margarita Xirgu, Enrique Rambal, María Casarest and Nuria Espert.

"Blimp, blop, blimp, bloop. Suzy gripped her sheets tightly. Was that noise coming from under her bed?" Helps Children Banish Bedtime FearsSo begins Suzy's adventure where she meets Karrit, another child, and one that lives far under her bed. The two children banish their bedtime fears and become best friends by treating each other the way that they want to be treated.A Fear of Monsters is CommonA fear of monsters under the bed is common with children of all ages, starting with a vague sense of the unknown with younger toddlers and graduating to perhaps a more solid image in the minds of older children.The Monster on Top of the Bed flips the idea around, like the famous Disney Movie Monsters Inc., and bases the story on the concept that it's the monsters that are actually afraid of the children.The Children Model The Golden RuleIn this beautifully illustrated book we meet two children--Suzy and Karrit, and we discover that sometimes things are not always what they seem and when the monster fears the child, we come to see a different perspective on misunderstandings and ignorance.We also discover that it is easy to misinterpret the meanings of words and actions, when Karrit explains to Suzy that certain things she says and does, frightens him.Although the words, "The Golden Rule" never appear in the book, the way the two children treat each other as though they would like to be treated enable the two of them to work together to work out their differences. A friendship forms, and a new light is shed upon them both when they realize that maybe they aren't so different from each other after all.A Mantra that Banishes Nighttime FearsWhen things get scary, both children use Grandmom's mantra, which is highly effective in banishing monsters, ""You're welcome to stay until I say, 'Nay!' Then it's time to go, and you can't say, 'no.'""This is an empowering bedtime story. The multimedia edition contains a link to an .mp4 file that features the same audio tracks in the CD version. Children can listen to the story being read by four narrators who read the story in English, Spanish and Italian. There are page turning sounds to let the child know when to turn the page. There are slight differences between the words in CD

version and the Kindle version. Children like the challenge of finding the differences. In addition to reading the story, the multimedia kindle edition also contains bonus material, including an interview with the illustrator, and other stories and poems written by the author. Order Copies For Yourself and Your Friends... It's perfect for three to six-year olds, and six-to-twelve year olds (who are sometimes still afraid of monsters) find the story charming and enjoy reading it to their younger siblings.

Dr. Brooke Spencer always felt different from other girls. Now a successful scientist, she is finally discovering where she belongs: working alongside the brilliant, trailblazing researcher Dr. Charles Samuelson. Dr. Samuelson has recently made a discovery that has eluded philosophers and dreamers for centuries: How to transmute iron into gold. Determined to use the knowledge for good, Dr. Samuelson recruits Brooke to assist him with his new plan, his "Golden Manifesto." But humans are not alone and his discovery has not gone unnoticed. Extraterrestrial visitors seek to control Dr. Samuelson's Breakthrough, and before long, Brooke is all that stands between Earth and total Destruction. Will she be able to hold her ground? Or will the timeless temptation of gold prove too much for even the strongest of spirits? Brooke will soon face a choice that will make her question her background, her career, and the fate of the planet. Spain, the Second World War, and the Holocaust is the first comprehensive historical and cultural study of Spain's unique relationship to this turbulent historical period. Surprise! You've just been laid off from the teaching position in which you have so passionately invested your time, talents and heart for years! What now? Hundreds of thousands of American teachers have been laid off in the last four years as a result of the long term recession that continues to challenge the country's economy. In this book, one of those teachers shares what that experience was like for her, how she coped with unexpected unemployment, and what she learned about finding her way as a teacher without a classroom. Full of not only truthful reflection and encouragement for teachers facing similar situations, this book also offers practical tips for how to handle lay-off and unemployment, and how to prepare yourself as an education professional to expand your career outside your classroom. These are uncertain times, but teachers don't need to feel uncertain about their careers. There IS life as an education professional after lay-off!

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. A Graphical Approach to Precalculus with Limits: A Unit Circle Approach illustrates how the graph of a function can be used to support the solutions of equations and inequalities involving the function. Beginning with linear functions in Chapter 1, the text uses a four-part process to analyze each type of function, starting first with the graph of the function, then the equation, the associated inequality of that equation, and ending with applications. The text covers all of the topics typically caught in a college algebra course, but with an organization that fosters students' understanding of the interrelationships among graphs, equations, and inequalities. With the Fifth Edition, the text continues to evolve as it addresses the changing needs of today's students.

Included are additional components to build skills, address critical thinking, solve applications, and apply technology to support traditional algebraic solutions, while maintaining its unique table of contents and functions-based approach. A Graphical Approach to Precalculus with Limits: A Unit Circle Approach continues to incorporate an open design, with helpful features and careful explanations of topics.

The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp.
