United States of America V. Brierton

The Government of India enacted special laws viz., the SRFAESI and RDB Acts to help speed up the recovery process of non-performing assets, by vesting the banks and F/Is with extra-ordinary powers for self-enforcement of security interests given as collaterals per mortgage in favour of the lenders. This book explains different stages of recovery process; rehabilitation measures expected of the / banks / FIs to help revive those temporarily sick but economically viable units facing brief span of mis-match in the flow of working funds; the RBI norm of 90 days to classify a loan account as NPA (Non-Performing Asset), when and whom to approach in case of objection to lender's action under Sec.13(2) of the SRFAESI Act, 2002; and about the remedy available till the last stage of execution but before confirmation of sale and transfer subject to Rules 8 & 9 of the SI(E) Rules, 2002 read with IT rule 15 relating to attachment of property. Any action for recovery under the SRFAESI or RDB Acts should strictly be in accordance with and in the manner and order of priority as laid down in the provisions of law, read with the relative Rules and RBI directives / guidelines. This book helps readers to understand nuances of the provisions of SRFAESI Act, 2002 and RDB Act, 1993; read with the relative Rules and RBI directives / guidelines. Honest and sincere borrowers / guarantors and / or any aggrieved party are assured of justice, when the process of law is being misused by lenders apparently in a perverse and absurd manner.

Construction Law Update 2018, ISBN: 9781454899440

Our Lot tells how an entire nation got swept up in real estate mania, and it casts the business story--the collapse of the subprime empire and the global impact it had on the economy--as part of a project of social engineering beginning in the 1930s by the U.S. government to make homeownership available to those who had never been able to attain it before. Based on original reporting, Our Lot does not dwell on the foibles of executives. It looks at the boom as experienced by ordinary Americans, and examines how our own economic anxieties and realities helped fuel the real estate bubble. Conveyed in accessible language and through narrative reporting, the book looks to help homeowners and would-be homeowners understand what really happened, how it has affected our homes and communities, and how we can move on into a future we'll want to live in.

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
