This authoritative volume has been revised throughout and expanded, with stunning new images and accounts of the major discoveries of recent years. Recent findings have been added to expand our understanding of the Olmecs outside of their heartland, and new research on the legacy of the Maya offers a wider and more cohesive narrative of Mexico's history. New co-author Javier Urcid has added greater coverage of Oaxaca and of Monté Alban, one of the earliest cities in Mesoamerica and the center of the Zapotec civilization, and a fully revised Epilogue discusses the survival of indigenous populations in Mexico from the Conquest up to the present. This longstanding classic now features full-colour photos of the vibrant art and architecture of ancient Mesoamerica throughout.

Help your students navigate complex texts in history and social studies. This book shows you how to use document-based questions, or DBQs, to build student literacy and critical thinking skills while meeting rigorous state

standards and preparing students for AP exams. DBQs can be implemented year-round and can be adjusted to meet your instructional needs. With the helpful advice in this book, you'll learn how to use DBQs to teach nonfiction and visual texts, including primary and secondary sources, maps, and paintings. You'll also get ideas for teaching students to examine different points of view and write analytical responses. Topics include: Using the SOAPSE Tone (Speaker, Occasion, Audience, Purpose, Subject, Evidence and Tone) technique to to analyze visual and nonvisual texts; Teaching students to distinguish between primary and secondary sources; Working with multiple texts and learning to recognize the relationships between them; Formulating DBQs to suit different types of assessment, including short-answer questions, multiple-choice questions, and in-class essay prompts; Evaluating student responses and providing constructive feedback.

The Perils of Prosperity, 1914-32

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque's masterpiece of the German experience during World War I. *I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm.*

***But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."*—The New York Times Book Review**

The Code of Hammurabi was one of several sets of laws in the ancient Near East and also one of the first forms of law. The code of laws was arranged in orderly groups, so that all who read the laws would know what was required of them. Earlier collections of laws include the Code of Ur-Nammu, king of Ur (c. 2050 BC), the Laws of Eshnunna (c. 1930 BC) and the codex of Lipit-Ishtar of Isin (c. 1870 BC), while later ones include the Hittite laws, the Assyrian laws, and Mosaic Law. These codes come from similar cultures in a relatively small geographical area, and they have passages which resemble each other.

This comprehensive and accessible reference explores the greatest and most mysterious of civilizations, hailed for its contributions to science, mathematics, and technology. Each chapter is supplemented by an extensive bibliography as well as photos, original line drawings, and maps.

The Incas is a captivating exploration of one of the greatest civilizations ever seen. Seamlessly drawing on history, archaeology, and ethnography, this thoroughly updated new edition integrates advances made in hundreds of new studies conducted over the last decade. • Written by one of the world's leading experts on Inca civilization • Covers Inca history, politics, economy, ideology, society, and military organization • Explores advances in research that include pre-imperial Inca society; the royal capital of Cuzco; the sacred landscape; royal estates; Machu Picchu; provincial relations; the khipu information-recording technology; languages, time frames, gender relations, effects on human biology, and daily life • Explicitly examines how the Inca world view and philosophy affected the character of the empire • Illustrated with over 90 maps, figures, and photographs

This classic history of the Arab peoples is a work of great thoroughness and insight which contains much to satisfy general readers as well as scholars. Here is the story of the rise of Islam in the Middle Ages, its conquests, its empire, its time of greatness and of decay, unrolling one of the richest and most instructive panoramas in history. For this reissue of the tenth edition, Walid Khalidi gives a brief overview of the history and content of the book, and emphasises the vital importance of Philip K. Hitti's magisterial and scholarly work to on-going attempts to bridge the Arab/Western cultural divide.

This practical resource shows you how to apply Sam Wineburg's highly acclaimed approach to teaching, "Reading Like a Historian," in your middle and high school classroom to increase academic literacy and spark students' curiosity. Chapters cover key moments in American history, beginning with exploration and colonization and ending with the Cuban Missile Crisis.

Is peace an aberration? The bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE EAST HAMPTON STAR "Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book."—H.R. McMaster, author of *Dereliction of Duty* and *Battlegrounds: The Fight to Defend the Free World* The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity's history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. *War: How Conflict Shaped Us* explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

Philosophers of the Warring States is an anthology of new translations of essential readings from the classic texts of early Chinese philosophy, informed by the latest scholarship. It includes the *Analects of Confucius*, *Meng Zi (Mencius)*, *Xun Zi*, *Mo Zi*, *Lao Zi (Dao De Jing)*, *Zhuang Zi*, and *Han Fei Zi*, as well as short chapters on the *Da Xue* and the *Zhong Yong*. Pedagogically organized, this book offers philosophically sophisticated annotations and commentaries as well as an extensive glossary explaining key philosophical concepts in detail. The translations aim to be true to the originals yet accessible, with the goal of opening up these rich and subtle philosophical texts to

modern readers without prior training in Chinese thought.

The First New Chronicle and Good Government

America's First Civilization

On the History of the World and the Incas up to 1615

Chinese Impressions of America from the Mid-Nineteenth Century to the Present

The American Pageant

One of the most fascinating books on pre-Columbian and early colonial Peru was written by a Peruvian Indian named Felipe Guaman Poma de Ayala. This book, *The First New Chronicle and Good Government*, covers pre-Inca times, various aspects of Inca culture, the Spanish conquest, and colonial times up to around 1615 when the manuscript was finished. Now housed in the Royal Library, Copenhagen, Denmark, and viewable online at www.kb.dk/permalink/2006/poma/info/en/frontpage.htm, the original manuscript has 1,189 pages accompanied by 398 full-page drawings that constitute the most accurate graphic depiction of Inca and colonial Peruvian material culture ever done. Working from the original manuscript and consulting with fellow Quechua- and Spanish-language experts, Roland Hamilton here provides the most complete and authoritative English translation of approximately the first third of *The First New Chronicle and Good Government*. The sections included in this volume (pages 1–369 of the manuscript) cover the history of Peru from the earliest times and the lives of each of the Inca rulers and their wives, as well as a wealth of information about ordinances, age grades, the calendar, idols, sorcerers, burials, punishments, jails, songs, palaces, roads, storage houses, and government officials. One hundred forty-six of Guaman Poma's detailed illustrations amplify the text.

The most modern and complete overview of Olmec culture, its accomplishments and impact on later Mexican civilizations, hailed by Michael Coe as the first truly complete and authoritative account of this 3,000-year-old culture, is fast becoming the standard work on the subject.

Provides a comprehensive review of all exam topics, test-taking strategies, and two full-length practice tests with detailed answer explanations.

Helping Students Analyze Nonfiction and Visual Texts

"This book traces the political, economic, social, and cultural phenomena that transformed America from an agrarian, primarily decentralized, moralistic, isolationist nation into an industrial, urban morally liberalized nation involved in foreign affairs in spite of itself. Beginning with Wilson and the entrance of the United States into World War I, Mr. Leuchtenburg covers the range of subsequent events: the fight over the League of Nations; the postwar Red scares and Palmer raids; the politics and foreign policy of the Harding and Coolidge administrations; the fate of progressivism in the twenties; the revolution in morals; the impact of the prosperity of the twenties on American character; the "political fundamentalism" which resulted in immigration restriction, the Scopes trial,

Prohibition, and the Ku Klux Klan; Hoover and the early years of the depression--all reflecting the conflict between rural and urban attitudes that reached its crisis in the presidential campaign of 1928 and was finally settled as an aftermath of the collapse of 1929."--Back cover.

Lavishly illustrated with over 300 pictures, including more than 200 in full color, The Oxford History of Islam offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume Oxford Encyclopedia of the Modern Islamic World, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, The Oxford History of Islam offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.
