

Franklin In The Dark

Kids Can Read! Level 2.

In this Franklin Classic Storybook, Franklin likes being a big brother ... most of the time. But when his little sister, Harriet, wants to play with his favorite stuffed animal, Franklin doesn’t want to share. As they tug at the toy, something terrible happens. It rips! Franklin’s mother fixes it, but he remains angry and hides the toy in his closet. Then Franklin discovers it’s not the toy that makes Harriet happy—it’s her big brother who brings a smile to her face. Franklin decides that maybe sharing isn’t so bad after all. In 1962, Maurice Wilkins, Francis Crick, and James Watson received the Nobel Prize, but it was Rosalind Franklin's data and photographs of DNA that led to their discovery. Brenda Maddox tells a powerful story of a remarkably single-minded, forthright, and tempestuous young woman who, at the age of fifteen, decided she was going to be a scientist, but who was airbrushed out of the greatest scientific discovery of the twentieth century.

When Franklin wakes up grumpy, his father discovers that Otter has moved away and that nothing seems right to Franklin without her, and after his father comforts him, Franklin decides to mail a special present to his friend. Original.

This tale of marriage in tatters is followed by the exploits of a Hollywood producer who, after three marriages, is looking for fresh fields. He calls a childhood sweetheart, now a suburban housewife, for a little sexual diversion. Over the years she has idolized him from afar and is now more than the match he bargained for. The last couple is a mother and father fighting about the best way to get their daughter out of the bathroom and down to the ballroom where guests await her or as Mother yells, "I want you to come out of that bathroom and get married!"--Publisher's description.
