Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. Pages: 176. Chapters: Final Fantasy VII, LittleBigPlanet (PlayStation 3), World of Warcraft, Metal Gear Solid 2: Sons of Liberty, Grand Theft Auto III, Deus Ex, Halo: Combat Evolved, The Legend of Zelda: Ocarina of Time, Sid Meier's Alpha Centauri, StarCraft, Final Fantasy VIII, Half-Life 2, Shadow of the Colossus, Call of Duty 4: Modern Warfare, GoldenEye 007 (1997 video game), Judi Dench, Gears of War, Half-Life (video game), Baldur's Gate II: Shadows of Amn, Final Fantasy X-2, Final Fantasy IX, Super Mario Galaxy, Metroid Prime, Halo 2, Grim Fandango, Crimson Skies: High Road to Revenge, Mark Hamill, The Legend of Zelda: Majora's Mask, Civilization IV, The Legend of Zelda: The Wind Waker, Battlefield 2. Excerpt: Final Fantasy VII Fainaru Fantaj Sebun) is a role-playing video game developed by Square (now Square Enix) and published by Sony Computer Entertainment as the seventh installment in the Final Fantasy series. It was released in 1997 for the Sony PlayStation, in 1998 for Microsoft Windows-based personal computers and in 2009 on the PlayStation Network. The game is the first in the series to use 3D computer graphics, featuring fully rendered characters on pre-rendered backgrounds, and was the first game in the main series to be released in Europe. Final Fantasy VII follows protagonist Cloud Strife, who initially joins the eco-terrorist rebel organization AVALANCHE to stop the world-controlling megacorporation Shinra, who are draining the life of the planet for use as an energy source. As the story progresses, Cloud and his allies become involved in a larger world-threatening conflict, facing off against Sephiroth, the game's main antagonist. Development of Final Fantasy VII began in 1994. The game was originally intended for release on the Super Nintendo Entertainment System, but was moved to the Nintendo 64. However, since...

Cheats Unlimited are the specialists when it comes to video game cheats, walkthrough guides, reviews and fetures. Fronted by the glamorous and gorgeous Cheatmistress, Cheats Unlimited has helped over five million gamers worldwide over the last 12 years. Games of the Decade is the literal alternative to taking your handheld gaming console on that long journey.Formats Covered:Xbox 360, Playstation 3, PSP, DS, PS2.

MARCUS FENIX. WAR HERO. LOYAL SON. TRAITOR. Ten years after Emergence Day, as the Locust Horde advances on humanity’s last defended area–Ephyra–in a bloody war that has seen billions die, Marcus Fenix does the unthinkable: he defies orders and abandons his post during a critical battle in a bid to rescue his father, weapons scientist Adam Fenix. But Adam is buried in the rubble during a ferocious assault on the Fenix mansion, and Ephyra falls to the enemy. Marcus, grieving for a father everyone believes is dead, is court-martialed for dereliction of duty and sentenced to forty years in the Coalition of Ordered Government’s brutal maximum security prison, known simply as the Slab. But Adam is very much alive, snatched from the destruction by the elite Onyx Guard on Chairman Richard Prescott’s orders. He’s now a long way from home and in a prison of his own–a COG doomsday bunker on the tropical island of Azura, a place hidden from the rest of Sera since the Pendulum Wars. His own guilty secret has been exposed: Adam knew the Locust existed deep below the surface of Sera long before Emergence Day, and were being driven from their tunnels by a lethal parasite known as the Lambert. Now he has to find a way to destroy the Lambert while the dwindling COG forces fight to hold back a growing Locust army that’s threatening to overrun the city. As Adam struggles to find redemption in his comfortable island jail, Marcus seeks his own atonement in the squalid, closed world within the Slab’s granite walls. While Dom Santiago and Anya Stroud fight to get him released, ready to make any sacrifice to free him, Marcus gradually finds unexpected kinship among Sera’s most dangerous criminals–and a way to carry on his personal war against the Locust. “Adam, you knew this day would come.” It was a familiar voice: silky, imperial, polished, and utterly human. “Hello, Myrrah.” Adam Fenix found himself thinking of the terrible Locust food again. “You got my message, then.” “And how right you were. We do need you. And we shall take you. I hope you’re not planning anything foolish. You have responsibilities, Adam.” It would be a living death. The Locust Queen would never release him, even if he developed a countermeasure. But he didn’t deserve any better. “I also have my service pistol.” “And I can take your son at any time.” He had the measure of her, then, and she had his. “You leave Marcus out of this. It’s a condition.” He opened the desk drawer and took out the handgun, a 9mm officer’s weapon. It made a distinctive clunk on the wooden desktop as he slammed it down. “If anything happens to him, I don't care what happens to the rest of Sera.”

WARNING: This video game may impair your judgment. It may cause sleep deprivation, alienation of friends and family, weight loss or gain, neglect of one's basic needs as well as the needs of loved ones and/or dependents, and decreased performance on the job. The distinction between fantasy and reality may become blurred. Play at your own risk. Not responsible for suicide attempts, whether failed or successful. No such warning was included on the latest and greatest release from the Warcraft series of massive multiplayer on-line role-playing games (MMORPGs)--World of Warcraft (WoW). So when Ryan Van Cleave--a college professor, husband, father, and one of the 11.5 million Warcraft subscribers worldwide--found himself teetering on the edge of the Arlington Memorial Bridge, he had no one to blame but himself. He had neglected his wife and children and had jeopardized his livelihood, all for the rush of living a life of high adventure in a virtual world. Ultimately, Ryan decided to live, but not for the sake of his family or for a newly found love of life: he had to get back home for his evening session of Warcraft. A fabulously written and gripping tale, Unplugged takes us on a journey through Ryan's semi-reclusive life with video games at the center of his experiences. Even when he was sexually molested by a young school teacher at age eleven, it was the promise of a new video game that lured him to her house. As Ryan's life progresses, we witness the evolution of videogames--from simple two-button consoles to today's complicated multi-key technology, brilliantly designed to keep the user actively participating. As is the case with most recovering addicts, Ryan eventually hits rock bottom and shares with the reader his ongoing battle to control his impulses to play, providing prescriptive advice and resources for those caught in the grip of this very real addiction.

Now from Bedford/St. Martin's, A History of Western Society is one of the most successful textbooks available because it captures students' interest in the everyday life of the past and ties social history to the broad sweep of politics and culture. The tenth edition has been thoroughly revised to strengthen the text's readability, heighten its attention to daily life, and incorporate the insights of new scholarship, including an enhanced treatment of European exploration and a thoroughly revised post-1945 section. With a dynamic new design, new special features, and a completely revised and robust companion reader, this major revision makes the past memorable and accessible for a new generation of students and instructors.

Lists records, superlatives, and unusual facts about computer and video games, and includes interviews with champion gamers, tips on play, and profiles of the best-selling games.

The official prequel to the action video game Gears 5, beginning immediately after Gears of War 4 and leading directly into the new game. THE OFFICIAL BRIDGE TO GEARS 5 Following Reyna Diaz's death at the hands of the Swarm, Kait seals her mother's tomb, swearing revenge. With her allies, including JD Fenix and Del Walker, she returns to New Ephyra to warn the Coalition of Ordered Governments: THE SWARM IS COMING However, First Minister Jinn requires proof of the threat. She also demands their utter loyalty, driving a wedge between the allies. Joined by Marcus Fenix, Kait strikes out on her own while JD and Del embark on a sanctioned mission to prove that the threat is real. With the fate of humankind hanging in the balance, it's a race against time.

Continuing the saga of the bestselling game series! With the Locust Horde apparently destroyed, Jacinto's survivors have begun to rebuild human society on the Locusts' stronghold. Raiding pirate gangs take a toll—but it's nothing that Marcus Fenix and the Gears can't handle. Then the nightmare that they thought they'd left behind begins to stalk them again. Something far worse, something even the Locust dreaded, has emerged to spread across the planet, and not even this remote island haven is beyond its reach. Gears and Stranded must fight side by side to survive their deadliest enemy yet, falling back on the savage tactics of another bloody siege—Anvil Gate.

Essays discuss the terminology, etymology, and history of key terms, offering a foundation for critical historical studies of games. Even as the field of game studies has flourished, critical historical studies of games have lagged behind other areas of research. Histories have generally been fact-by-fact chronicles; fundamental terms of game design and development, technology, and play have rarely been examined in the context of their historical, etymological, and conceptual underpinnings. This volume attempts to “debug” the flawed historiography of video games. It offers original essays on key concepts in game studies, arranged as in a lexicon—from “Amusement Arcade” to “Embodiment” and “Game Art” to “Simulation” and “World Building.” Written by scholars and practitioners from a variety of disciplines, including game development, curatorship, media archaeology, cultural studies, and technology studies, the essays offer a series of distinctive critical “takes” on historical topics. The majority of essays look at game history from the outside in; some take deep dives into the histories of play and simulation to provide context for the development of electronic and digital games; others take on such technological components of games as code and audio. Not all essays are history or historical etymology—there is an analysis of game design, and a discussion of intellectual property—but they nonetheless raise questions for historians to consider. Taken together, the essays offer a foundation for the emerging study of game history. Contributors Marcelo Aranda, Brooke Belisle, Caetlin Benson-Allott, Stephanie Boluk, Jennifer deWinter, J. P. This book highlights the challenges and potential of educational learning or industry-based training using serious games and social media platforms. In particular, the book addresses applications used in businesses and education-related organizations in Asia, where the framework and experience of serious games have been used to address specific problems in the real world. The topics that will be present in this book includes future of serious games and immersive technologies and their impact on society; online and mobile games; achievement systems in serious games; persuasive technology and games for saving and money management; malware analytics for social networking; serious games for mental health interventions; educational implications of social network games; learning and acquiring subject knowledge using serious games in classrooms. The target audience for this book includes scientists, engineers and practitioners involved in the field of Serious Games. The major part of this book comprises of papers that have been presented at the Serious Games and Social Connect 2012 conference held in Singapore (October 4, 2012). All the contributions have been peer reviewed and by scientific committee members with report about quality, content and originality.

The co-founder of the Stanford d.School introduces the power of design thinking to help you achieve goals you never thought possible. Achievement can be learned. It's a muscle, and once you learn how to flex it, you'll be able to meet life's challenges and fulfill your goals, Bernard Roth, Academic Director at the Stanford d.school contends. In The Achievement Habit, Roth applies the remarkable insights that stem from design thinking-previously used to solve large scale projects-to help us realize the power for positive change we all have within us. Roth leads us through a series of discussions, stories, recommendations, and exercises designed to help us create a different experience in our lives. He shares invaluable insights we can use to gain confidence to do what we've always wanted and overcome obstacles that hamper us from reaching our potential, including: Don't try-DO; Excuses are self-defeating; Believe you are a doer and achiever and you'll become one; Build resiliency by reinforcing what you do rather than what you accomplish; Learn to ignore distractions that prevent you from achieving your goals; Become open to learning from your own experience and from those around you; And more. The brain is complex and is always working with our egos to sabotage our best intentions. But we can be mindful; we can create habits that make our lives better. Thoughtful and powerful The Achievement Habit shows you how.

"As kids, the three of them were inseparable; as soldiers, they were torn apart. Marcus Fenix and Dominic Santiago fought alongside Dom's elder brother Carlos at Aspho Fields in the epic battle that changed the course of the Pendulum Wars. There's a new war to fight now, a war for mankind's very survival. But while the last human stronghold on Sera braces itself for another onslaught from the Locust Horde, ghosts come back to haunt Marcus and Dom, as the return of an old comrade threatens to dredge up an agonizing secret Marcus has sworn to keep. As the beleaguered Gears of the Coalition of Ordered Governments take a last stand to save mankind from extinction, the harrowing decisions made at Aspho Fields have to be relived and made again. Marcus and Dom can take anything the Locust Horde throws at them--but will their friendship survive the truth about Carlos Santiago?"--Page 4 of cover.

Guinness World Records 2016 Gamer's Edition

Gears of War 2

Winner of the 2018 American Academy of Diplomacy Douglas Dillon Award Shortlisted for the 2018 Duff Cooper Prize in Literary Nonfiction "[A] brilliant book by far the best study yet" (Paul Kennedy, The Wall Street Journal) of the gripping history behind the Marshall Plan and its long-lasting influence on our world. In the wake of World War II, with Britain 's empire collapsing and Stalin 's on the rise, US officials under new Secretary of State George C. Marshall set out to reconstruct western Europe as a bulwark against communist authoritarianism. Their massive, costly, and ambitious undertaking would confront Europeans and Americans alike with a vision at odds with their history and self-conceptions. In the process, they would drive the creation of NATO, the European Union, and a Western identity that continue to shape world events. Benn Steil 's "thoroughly researched and well-written account" (USA TODAY) tells the story behind the birth of the Cold War, told with verve, insight, and resonance for today. Focusing on the critical years 1947 to 1949, Benn Steil 's gripping narrative takes us through the seminal episodes marking the collapse of postwar US-Soviet relations--the Prague coup, the Berlin blockade, and the division of Germany. In each case, Stalin 's determination to crush the Marshall Plan and undermine American power in Europe is vividly portrayed. Bringing to bear fascinating new material from American, Russian, German, and other European archives, Steil 's account will forever change how we see the Marshall Plan. "Trenchant and timely.an ambitious, deeply researched narrative that provides a fresh perspective on the coming Cold War" (The New York Times Book Review), The Marshall Plan is a polished and masterly work of historical narrative. An instant classic of Cold War literature, it "is a gripping, complex, and critically important story that is told with clarity and precision" (The Christian Science Monitor).

The bestselling video games annual is back! Bursting with mind-blowing records and tantalizing trivia, the Guinness World Records 2016: Gamer's Edition is a must-have for any gaming fan. Whether you're all about the latest first-person shooter, an app aficionado, an MMO master, or a die-hard retro gamer, you'll find show-stopping records, top 10 roundups, quick-fire facts and stats, and hundreds of amazing new images from all your favorite games. Think you can challenge the current champions? Look inside to see how to break your very own record! Guinness World Records: Gamer's Editions have sold a whopping 3+ million copies. Find out for yourself why it's a game-changer!

An updated version of the bestselling Game Testing All In One, Second Edition, this book equips the reader with the rationale for vigorous testing of game software, how game testing and the tester fit into the game development process, practical knowledge of tools to apply to game testing, game tester roles and responsibilities, and the measurements to determine game quality and testing progress. The reader is taken step-by-step through test design and other QA methods, using real game situations. The book includes content for the latest console games and the new crop of touch, mobile, and social games that have recently emerged. A companion DVD contains the tools used for the examples in the book and additional resources such as test table templates and generic flow diagrams to get started quickly with any game test project. Each chapter includes questions and exercises, making the book suitable for classroom use as well as a personal study or reference tool. Features: * Uses a wide range of game titles and genres, including newer gaming experiences such as social networking games, games utilizing music and motion controllers, and touch games on mobile devices * Includes a new chapter on Exploratory Testing * Includes test methodology tutorials based on actual games with tools that readers can use for personal or professional development * Demonstrates methods and tools for tracking and managing game testing progress and game quality * Features a companion DVD with templates, resources, and projects from the book On the DVD: * Contains the tools used for the examples in the book as well as additional resources such as test table templates and generic flow diagrams that can be used for individual or group projects * All images from the text (including 4-color screenshots) * FIFA video from a project in the book eBook Customers: Companion files are available for downloading with order number/proof of purchase by writing to the publisher at info@merclearning.com.
