(PIM). Part I
(Always and
Forever)

introduces the
essentials of
PIM.

Information is
personal for
many reasons.
It's the
information on
our hard drives

we couldn't bear to lose. It's the information about us that we don't want to share. It's the distracting information demanding our attention even as we try to do something else.

Online Library
Google Apps Vs
Office 365 An
Independent
Guide

It's the information we don't know about but need to. Through PIM, we control personal information. We integrate information into our lives in useful ways. We

make it "ours."

With basics
established,

Part I proceeds
to explore a
critical interplay
between
personal
information
"always" at
hand through
mobile devices

and "forever" on

does
information stay

world? Part II
(Building Places

Digital
Information)

of 2012, and will
consist of the
following
chapters:

Chapter 5.

Technologies to
eliminate PIM?:

astonishing
advances in the
technologies of
information

management --
in particular, to
aid in the
storing,
structuring and
searching of
information.
These
technologies
will certainly
change the way
we do PIM; will

they eliminate
the need for
PIM altogether?
Chapter 6. GIM
and the social
fabric of PIM:
We don't (and
shouldn't)
manage our
information in
isolation. Group
information

especially the
kind practiced
more informally
in households
and smaller
project teams --

PIM. Chapter 7.
PIM by design:

Methodologies,
principles,
questions and
considerations
as we seek to
understand PIM
better and to
build PIM into
our tools,
techniques and
training.

Chapter 8. To

each of us, our own.: Just as we must each be a student of our own practice of PIM, we must also be a designer of this practice. This concluding chapter looks at tips, traps and

tradeoffs as we
work to build a
