The field of educational psychology is primarily concerned with teaching and learning. Educational psychology has a long historical past and an extensive record of conducting empirical research into the teaching/learning process. Educational psychology has also been involved with the topics of motivation, intelligence, memory, cognition, intellectual development and evaluation and assessment. Over the past 50 years, educational psychology has been predominantly involved with the learning processes of the normal, average student. However, over the past 20 years, mainstreaming and later inclusion has presented an additional challenge for educational psychologists and classroom teachers. This new book presents leading research from around the globe in all areas of educational psychology.

The Assam Teachers Eligibility Test is shortly known as ATET and this test is managed by the Government of Assam, Department of Elementary Education to recruit the candidates as teachers by following the rules of the National Council of Teacher Education (NCTE).
