**The blockbuster best seller Primal Leadership introduced us to "resonant" leaders--individuals who manage their own and others' emotions in ways that drive success. Leaders everywhere recognized the validity of resonant leadership, but struggled with how to achieve and sustain resonance amid the relentless demands of work and life. Now, Richard Boyatzis and Annie McKee provide an indispensable guide to overcoming the vicious cycle of stress, sacrifice, and dissonance that afflicts many leaders. Drawing from extensive multidisciplinary research and real-life stories, Resonant Leadership offers a field-tested framework for creating the resonance that fuels great leadership. Rather than constantly sacrificing themselves to workplace demands, leaders can manage the cycle using specific techniques to combat stress, avoid burnout, and renew themselves physically, mentally, and emotionally. The book reveals that the path to resonance is through mindfulness, hope, and compassion and shows how intentionally employing these qualities creates effective and enduring leadership. Great leaders are resonant leaders. Resonant Leadership offers the inspiration--and tools--to spark and sustain resonance in ourselves and in those we lead.**

**The notion of responsible business has infiltrated our markets, and "going green" is now a part of our mindset. But, sustainability as we know it is not enough. Flourishing—the aspiration that humans and life in general will thrive on the planet forever—should be a key goal for every business today. This is a bold concept, like sustainability was a decade ago. Just as sustainability has become a matter of course, so too will flourishing become a cornerstone of business tomorrow. How are companies to attain this big-picture goal? Drawing together decades of research along with in-depth interviews, Flourishing Enterprise argues that many strategic, organizational, and operational efforts to be sustainable reach the potential of flourishing when they incorporate one additional ingredient: reflective practices. Offering more than a dozen such practices, this book leads readers down a path to greater business success, personal well-being, and a healthier planet. Readers will find that adding reflective practices to existing business efforts does not require more work; it simply changes the way we do our work and, more importantly, the results we achieve. Cultivating emotional and spiritual health is the next frontier; this future-oriented guide develops these core competencies while stretching the ongoing conversation about profitable, sustainable business.**

ⓘOften, at the hour of day when the savannah grass is streaked with silver, and pale gold rims the silhouettes of the hills, I drive with my dogs up to the Mukutan, to watch the sun setting behind the lake, and the evening shadows settle over the valleys and plains of the Laikipia plateau.ⓘ Kuki Gallmann's haunting memoir of bringing up a family in Kenya in the 1970s first with her husband Paulo, and then alone, is part elegaic celebration, part tragedy, and part love letter to the magical spirit of Africa.

Cosìè la leadership al giorno d'oggi? Non è più ciò che pensi. L'inclusività, la globalizzazione, lo smart working, l'attenzione al prossimo e le nuove scoperte per massimizzare il rendimento del singolo e di un team di lavoro hanno dato un duro colpo alle teorie sulla leadership del passato. Poi è arrivato il Covid-19 ed è stato il colpo finale. Puoi continuare a seguire i modelli di leadership che hai scoperto negli anni, che hai letto nei libri, che hai visto nei film, oppure puoi imparare la nuova tendenza, quella che sta rivoluzionando il mondo dell'efficienza professionale. Sei pronto a questa nuova sfida?

Le aziende utilizzano modelli e stili manageriali vecchi di oltre 50 anni. Per reinventare il management e la leadership occorre lavorare principalmente sulle soft skills, competenze trasversali slegate da specifiche competenze tecniche e correlate alle dimensioni relazionali-organizzative, che si esprimono in qualsiasi ruolo professionale. Nella nuova Industry 4.0 le competenze soft stanno assumendo un ruolo sempre più centrale, sia nella scelta iniziale delle persone che nel decidere se promuoverle a posizioni manageriali. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; text-align: center; font: 9.5px Helvetica} p.p2 {margin: 0.0px 0.0px 0.0px 0.0px; text-align: center; font: 9.5px Helvetica; min-height: 11.0px}

As business reinvents itself at broadband speed, what makes leaders effective has inevitably been transformed. Old assumptions and old modes no longer hold; a new style of leadership that works has emerged amidst the chaos of change. This new leader excels in the art of relationship, the singular expertise which the changing business climate renders indispensable. Excellence is being defined in interpersonal terms as companies have stripped out layers of managers, as corporations merge across national boundaries, and as customers and suppliers redefine the web of connection. Bestselling author Daniel Goleman argues that emotionally intelligent leaders are now 'must-haves' for business today. But many readers have been left with, So now what do I do? The New Leaders answers that question by laying out the map for transforming leadership in individuals, in teams and organisations.
