Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three

The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Cultural Maturity: A Guidebook for the Future is the most detailed of three new future-related works by the author. It looks deeply at how the most important challenges ahead for the species will require not just better ideas, but new human capacities; in the end, an essential "growing up" as a species-a new Cultural Maturity. It is written for those inter-ested in acquiring the newly sophisticated leadership abilities that we will more and more need in all parts of our lives in

times ahead. The concept of Cultural Maturity makes understandable how institutional structures and beliefs that in modern times have served us well can't be the ideals and end points that we have assumed them to be. It goes on to articulate a new guiding story for our time, one able to take us equally beyond denial, cynicism, and naïve wishful thinking. This book looks deeply at the changes the concept of Cultural Maturity describes-both how they make needed new capacities

possible, and how we see their beginnings in many parts of our personal and collective lives. The concept of Cultural Maturity is based on the ideas of Creative Systems Theory, a comprehensive framework for understanding change, purpose, and interrelationship in human systems. Creative Systems Theory describes how Cultural Maturity's changes are as, or more, significant than those that brought us modern democratic governance 250 years ago. It also argues
