*indexes in this volume, a main index at the front of this volume that will take you to the beginning each of the books of the bible and another index at the beginning of each book there is a linked scripture index leading to the particular subject. MacLaren's Expositions of Holy Scripture is considered one of the greatest expositor's commentary of all time. This commentary has more than 1,500 sermons arranged in canonical order with more than 46,000 scriptural references, making this collection one of the fullest expositor's commentary ever. For his work MacLaren drew praise from many. A. T. Robertson said of MacLaren "His matchless discourses are the fruit of the most exact scholarship and spiritual enthusiasm." F. B. Meyer said "As an expository preacher none of them equaled MacLaren of Manchester, and no other sermons were so widely read the world around." MacLaren was born in Glasgow on February 11, 1826, and died in Manchester on May 5, 1910. He had been for almost sixty-five years a minister, entirely devoted to his calling. He lived more than almost any of the great preachers of his time between his study, his pulpit, his pen. His ministry fell into a quiet routine for which he was always grateful: two sermons on Sunday, a Monday prayer meeting and a Thursday service and lecture. His parishioners thought his sermons to them were the best he ever preached. In April 1858 he was called to be minister at Union Chapel in Manchester. No ministry could have been happier. The church prospered and a new building had to be erected to seat 1,500; every sitting was taken. His renown as preacher spread throughout the English-speaking world. His pulpit became his throne. He was twice elected President of the Baptist Union. He resigned as pastor in 1905 after a ministry of forty-five years. MacLaren's religious life was hid with Christ in God. He walked with God day by day. He loved Jesus Christ with a reverent, holy love and lived to make Him known. In his farewell sermon at Union he said: "To efface oneself is one of a preacher's first*

"Game Feel" exposes "feel" as a hidden language in game design that no one has fully articulated yet. The language could be compared to the building blocks of music (time signatures, chord progressions, verse) - no matter the instruments, style or time period - these building blocks come into play. Feel and sensation are similar building blocks where game design is concerned. They create the meta-sensation of involvement with a game. The understanding of how game designers create feel, and affect feel are only partially understood by most in the field and tends to be overlooked as a method or course of study, yet a game's feel is central to a game's success. This book brings the subject of feel to light by consolidating existing theories into a cohesive book. The book covers topics like the role of sound, ancillary indicators, the importance of metaphor, how people perceive things, and a brief history of feel in

games. The associated web site contains a playset with ready-made tools to design feel in games, six key components to creating virtual sensation. There's a play palette too, so the designer can first experience the importance of that component by altering variables and feeling the results. The playset allows the reader to experience each of the sensations described in the book, and then allows them to apply them to their own projects. Creating game feel without having to program, essentially. The final version of the playset will have enough flexibility that the reader will be able to use it as a companion to the exercises in the book, working through each one to create the feel described.

Authors Shannon Hengen and Ashley Thomson have assembled a reference guide that covers all of the works written by the acclaimed Canadian author Margaret Atwood since 1988, including her novels *Cat's Eye*, *The Robber Bride*, *Alias Grace*, and the 2000 Booker Prize winner, *The Blind Assassin*. Rather than just including Atwood's books, this guide includes all of Atwood's works, including articles, short stories, letters, and individual poetry. Adaptations of Atwood's works are also included, as are some of her more public quotations. Secondary entries (i.e. interviews, scholarly resources, and reviews) are first sorted by type, and then arranged alphabetically by author, to allow greater ease of navigation. The individual chapters are organized chronologically, with each subdivided into seven categories: Atwood's Works, Adaptations, Quotations, Interviews, Scholarly Resources, Reviews of Atwood's Works, and Reviews of Adaptations of Atwood's Works. The book also includes a chapter entitled 'Atwood on the Web,' as well as extensive author and subject indexes. This new bibliography significantly enhances access to Atwood material, a feature that will be welcomed by university, public,

*Infinite Phenomenology* builds on John Russon's earlier book, *Reading Hegel's Phenomenology*, to offer a second reading of Hegel's *Phenomenology of Spirit*. Here again, Russon writes in a lucid, engaging style and, through careful attention to the text and a subtle attunement to the existential questions that haunt human life, he demonstrates how powerfully Hegel's philosophy can speak to the basic questions of philosophy. In addition to original studies of all the major sections of the *Phenomenology*, Russon discusses complementary texts by Hegel, namely, the *Philosophy of Spirit*, the *Philosophy of Right*, and the *Science of Logic*. He concludes with an appendix that discusses the reception and appropriation of Hegel's *Phenomenology* in twentieth-century French philosophy. As with Russon's earlier work, *Infinite Phenomenology* will remain essential reading for those looking to engage Hegel's essential, yet difficult, text.
