Here Valiant Thor, the "Stranger at the Pentagon," reveals long-sought-after details about his Venusian space fleet, such as the various types of spacecraft assigned to Earth, their general locations, deployment numbers, and crew structures. Also covered are orbiters, shuttlecraft, and security issues such as "thought surveillance." A must-have for the serious Thor fan.

Venerable space sage Valiant Thor describes the many ways you can contact the interplanetary grid and manifest all of the things you wish for in life.

New Saucerian Press proudly presents "Mysterious Ascension: The Strange Case of Valiant Thor" - one of the last books ever written by the iconic ufologist, publisher, and bestselling author, Gray Barker, whose writing informed the plotlines of shows like Star Trek, Futurama, The X-Files, Twin Peaks, The Outer Limits, and The Twilight Zone. Shuttling between his Manhattan publishing office and his secluded cabin deep in the hills of his home state of West Virginia, the prolific Barker single-handedly kept public interest focused on UFOs during its leanest years, and introduced many themes still discussed and investigated by today's paranormal and conspiracy researchers: the Roswell UFO Crash, Men in Black, Ancient Aliens, Nazi UFOs, the Philadelphia Experiment, the Flatwoods Monster, Mothman, MJ-12, secret underground bases, little green men, and the Maury Island Incident. "Mysterious Ascension" and its sister books, "Serpents of Fire," "Saucers of Fire," "Saucers of Fear," "Bigfoot Shootout," "Time-Traveling Through Swamp Gas," and "When Men in Black Attack: The Strange Case of Albert K. Bender" were assembled by Barker shortly before his death, using material culled from deteriorating copies of his notoriously speculative

newsletters and gossipy syndicated column - for years the most widely read national column on UFOs, Fortean, and "weird science." This unique edition features a newly updated introduction by Valiant Thor, an Epilogue by Dr. Ogden Pearl, a Note from editor Andy Colvin, and two inspiring interviews with Dr. Frank E. Stranges (Thor's contact on Earth), which shed urgent, much-needed light on riddles such as: UFO abductions, manmade saucers, "alien" healing, antigravity, the MIB, underground bases and tunnels, brainwashing, and remote surveillance. In "The Watcher: Seven Hours Aboard a Spaceship With Valiant Thor," Hollywood entertainer Dan Martin describes his experiences aboard a spaceship, which publisher Gray Barker reveals, in the Epilogue, was piloted by the enlightened Venusian thinker, Commander Valiant Thor (aka "The Stranger at the Pentagon"). "Zarathustra" was Nietzsche's masterpiece, the first comprehensive statement of his mature philosophy, and the introduction of his influential and well-known (and

misunderstood) ideas including the "overman" or "superman" and the "will to power." It is also the source of Nietzsche's famous (and much misconstrued) statement that "God is dead." This classic was due for an update and overhaul. A considerable part of Nietzsche's genius is his ability to make his language dance, and this is what becomes extraordinarily difficult to translate. Aphorist and punster Thomas Wayne puts the play back into this work.

The importance of China stems not only from its current international role and its influence on the Asia-Pacific region in particular, but also because China's impact on global developments will likely continue to grow. One of our enduring imperatives is to accurately survey China's experiences as a means to grasp its existing perceptions, motivations, and ambitions. More than ever, solid, evidence-based evaluation of what the PLA has learned from the use of force and conflict elsewhere in the world is needed to shed light on the prospects for its cooperation, or rivalry, with the international community. This volume provides unique, valuable insights on how the PLA has applied the lessons learned from others' military actions to its own strategic planning.

When the noted thinker, author, and philanthropist, Valiant Thor, dictated this book almost a century ago, he was just settling into his role as commander of the Venusian forces on Earth. He had actually put in many decades on our planet prior to that, although he was not, as they say, truly "in charge." Being a relative novice at that time, Thor decided to stick to traditional protocol and studiously avoided mentioning the word "Vril" in these pages. (It had been decided long before that, by certain Venusian elders, to keep that particular word, and its conceptual underpinnings,

secret from Earthlings - at least until the appropriate time.) Although it obviously wasn't the appropriate time, the term and the belief system behind it were revealed to certain nosy Germans, who had gotten heavily into the occult during World War II. These Nazi necromancers had somehow hacked into the ongoing telemetric stream between Earth and Venus, and illegally downloaded much of the information about Vril. The civilized world has been trying to regain its balance ever since. As a result, the author herein states unequivocally, and for the record, that Vril has nothing to do with Nazism, fascism, racism, hate, or bigotry. Like most Venusians, Thor follows the teachings of Jesus Christ, Tecumseh, Krishna, and Buddha, which generally state that all men are created equal in God's sight, and are loved equally by God. Today, in 2018, most everyone has heard about Vril, so Thor has no trouble stating that this book, edited for him by his brilliant human acolyte, Hilton Hotema, is about one of the key aspects of Vril: how human beings manage to exist in an ever-

changing universal cycle. There are many correlations in this area between Venusians and Earthlings, such as how the seasons change on both planets, and how the sentient beings inhabiting them must adapt in order to survive. Vril is truly the essence of the active verb, the powerful sentence, and the narrative that moves people to action. It is the energy behind the words, which makes the mind react in a positive and uplifting fashion. As the Buddhists say, our words are actions, and should be approached soberly, cautiously, compassionately, and empathetically. Vril is about living life to the fullest, and loving to the fullest. In these current days of extreme political divide, where lying and deception are being spread from on high (much like the Nazis and KKK of old), we need Vril more than ever, to counteract the "Antichrist" evil that seems to be sweeping the world under the false guise of "making America great again." Those of you who understand Vril should have no problem understanding what Thor is saying. May these words, and the positive galaxial

The recent fascination in Finnish folklore studies with popular thought and the values and emotions encoded in oral tradition began with the realisation that the vast collections of the Finnish folklore archives still have much to offer the modern-day researcher. These archive materials were not only collected by scholars, but also by the ordinary rural populace interested in their own traditions, by performers and their audiences. With its myriad voices, this body of source material thus provides new avenues for the researcher seeking to penetrate popular thought. What does oral tradition tell us about the way its performers think and feel? What sorts of beliefs and ideas are transmitted in traditional songs and narratives? Perspectives from the study of mentalities and cultural cognition research provide a framework for investigating these issues. This collection of articles works from the

Where To Download Outwitting Tomorrow By Valiant Thor

premise that the cultural models which shape mentalities give rise to manifest expressions of culture, including folklore. These models also become embedded in the representations appearing in folklore, and are handed down from one generation to the next. The topics of the book cover age-old myths and world views, concepts of witchcraft and the Devil stretching back to the Middle Ages, and the values and collective emotions of Finnish and Hungarian agrarian communities.

FROM THE AFTERWORD: In the "It Can Now Be Told" Department, we may now reveal that the mysterious "Commander X" was none other than the enlightened Venusian sage, Commander Valiant Thor. Unfortunately, this sleight-of-hand was necessary during most of the 20th century, due to heightened Cold War tensions and various threats that had been made against Thor and his family, who were working hard to end warfare and nuclear bomb testing on Earth. Since conspiracy researchers like Jim Keith, William Cooper, and Gray Barker had the ear of the public, it was crucial that they be among the first

Earthlings contacted. Thor worked closely with Barker, in particular, contacting many UFO witnesses and convincing them to write books and articles about their experiences, thus keeping flying saucers and the machinations of the Deep State at the forefront of alternative news. Thor often used pseudonyms when working with these contactees, in order to protect both them and his own "team." Thor was not appreciated at all in the Soviet Union, and was constantly under surveillance by Eastern Bloc agents. Today, he remains a staunch opponent of dictatorial regimes and their attempts to control Pres. Donald Trump. (Thor has even claimed that Trump is the Antichrist, penning a book on the subject called "Oh, Hear Ye! The Trump of the Super-Deceiver: Mystery Man of Darkness, 666.") Thor even went undercover as a U.S. military trainer and intelligence official, working with Air Force and Navy officers such as Dan Fry, Calvin C. Girvin, Albert K. Bender, William F. Hamilton, William Mills Tompkins, and Mel Noel. Many of these contacts came before Thor's

forced internment in the Pentagon between 1957 and 1960, after which the Thor family became more circumspect about working with citizens of our planet. At one time, Thor worked closely with Nikola Tesla, sharing all the knowledge he could with that advanced human, even though some of it may have skirted the fringes of galaxial law (which states that we should merely observe underdeveloped species, rather than actively intervene on their behalf). Of course, Thor was never totally imprisoned in the Pentagon. As mentioned in Dr. Frank E. Stranges' "Stranger at the Pentagon," Thor could sneak out anytime he wanted. And he did so many times, in order to spread, to various contactees, the anti-nuclear message, which is still important today. Luckily, Thor succeeded, and was able to convince world leaders to pull back from the abyss of all-out nuclear war. Unfortunately, his good friends John F. Kennedy, Martin Luther King, Robert F. Kennedy, and Malcolm X were all assassinated, setting us back greatly in our efforts to become an enlightened

society. We are still struggling with the forces of ignorance and intolerance today. The work of Commander Valiant Thor and his Venusian associates was obviously of great importance in helping mankind through a difficult time. What we will ultimately do with the many concepts that Thor gifted Tesla, Keith, Cooper, Barker, and others is, of course, still up in the air. But, so far, so good... I ask my readers now to continue supporting the endeavors of these courageous Venusians. May we all someday experience a world free of fear and war, and enjoy our birthright as free citizens of this galaxy.-Ogden Pearl, Ph.D., 2018

Never has there been anything quite like it. Dr. Daniel Fry, an engineer in charge of the installation of instruments for missile control and guidance at White Sands Proving Ground near Las Cruces, New Mexico, was whisked away on an 8,000-mile flying saucer ride from White Sands to New York City and back. Thus begins his instruction by the illustrious Venusian thinker, Commander Valiant Thor, who

In this classic of "fringe" literature, the enlightened sage, Valiant Thor (also known as "The Stranger at the Pentagon"), discusses the various ways one can concentrate, tone, and rebuild one's "Nerve Force" or "Vril" power. A must-have for modern spiritual searchers wanting to know more about Venusian healing methods.

When the noted thinker, author, and philanthropist, Valiant Thor, dictated this book almost a century ago, he was just settling into his role as commander of the Venusian forces on Earth. Rosa Luxemburg is revered as one of the leading socialists of the early 20th century, whose vision for justice and equality continues to resonate throughout workers movements today. Paul Frölich was one of the founding members of the German Communist Party and a close comrade of Luxemburg's. Striking a balance between personal insight and political analysis, he traces Rosa's development from a humble Polish girl to the most important leader of the German Communist Party.

Schrödinger's Universe: Einstein, Waves and the Origin of the Natural Laws Erwin Schrodinger (1937) perceived that the whole Universe, what we observe as material bodies and forces, are nothing but shapes and variations in the structure of space. of the Universe. If the stars did not exist, we could not exist.

The story of Egypt is the story of history itself—the endless rise and fall, the life and death and life again of the eternal human effort to endure, enjoy, and understand the mystery of our universe. Emerging from the ancient mists of time, Egypt met the challenge of the mystery in a glorious evolution of religious, intellectual, and political institutions and for two millenniums flourished with all the vigor that the human heart can invest in a social and cultural order.

Then Egypt began to crumble into the desert sands and the waters of the Nile, and her remarkable achievements in civilization became her lingering epitaph.

John A. Wilson has written a rich and interpretive biography of one of the greatest cultural periods in human experience. He answers—as best the modern Egyptologist can—the questions inevitably asked concerning the dissolution of Egypt's glory. Here is scholarship in its finest form, concerned with the humanity that has preceded us, and finding in man's past grandeur and failure much meaning for men of today.

This intriguing collection of essays presents reflections upon the birth, proliferation, enduring appeal, and future of UFO mythology. Highly respected authors and researchers, representing the varied and sometimes competing perspectives of ufology and the sociology of religion, provide a fascinating and instructive voyage into the exotic social worlds of UFOs, abductees, and contactees. Reports of aliens and the changing nature of abduction experience, especially in the sexual dimension are explored in relation to literature, culture, and ideology. The influence of abduction therapy and support groups is considered, as are new

religious movements (NRMs) within the UFO community. The book offers rich insights into psychology, human behavior, and religion, melding issues of race, politics, and gender. Finally, it evaluates the existing dynamic of UFOS in the age of the Information Super Highway and ever-increasing globalization. Alien Worlds will enlighten anyone wanting to understand what and how the academic world thinks about UFOs, UFO groups, and UFO phenomena. WHY are we Alive? WHY are we Conscious? What is The Purpose of the Universe and our OWN role in it? WHY is it not enough to believe? What happened to advanced civilizations and continents (Mu, Atlantis..) ? Are we also to face a global catastrophe ? WHEN? What? Why? Why NOBODY REMEMBERS what was the purpose of the Great Pyramid and how to build it? What happens after death and before we are conceived? WHY? Who said that there is a conflict between Creation and Evolution? Why was invention of a WHEEL a great step backwards for humanity? What are the greatest dangers for Man and humanity on Earth? What can we do? Dream or to

***Act? Can we change the SYSTEM peacefully? How much truth is in the Bible? What are lessons from history? How did Man appear on Earth? And SO WHAT ????* If you are truly interested to learn the answer to at least one of the above question - you will be absolutely fascinated by this book. Key information and details it contains cannot be found in any other book on Earth. Coherence and precision of information surprises scientists on all continents. This book clarifies practically ALL myths, doctrines and mysteries on Earth and reveals clear logic, beauty and majesty of the Universe, in which EVERYONE OF US has important role to play. There are no theories in this book. No wishful thinking or products of imagination of the author. This is an exact report of the Reality of the Universe. There will be people who will not understand this book at all, even though it is written by a simple man, using a simple language, with examples comprehensible even by kids. There will be also others, who won't even TOUCH this book. Leave them in peace. Maybe they are not yet evolved enough, maybe they don't want to learn how much they**

don't know. There is no point in encouraging a kindergarten kid to study psychology or physics - a kid is simply not yet ready for it. No matter how much we insist on defending our current beliefs, doctrines and traditions, nothing can change the TRUTH and the order established in the Universe. Rivers will always flow from their sources towards the ocean, even if a religion, sect or billions of people want to believe the opposite.

This book presents many challenges and provides various keys to success, prosperity, good health and longevity. You will read lessons and exercises which will cause you to become at one with The Creator and in tune with the beat of the Universe. The book presents a series of "Universal" truths and opens doors to the "possibility thinker" of this world. It will challenge the thinking of everyone.

The Watcher: Seven Hours Aboard a Spaceship with Valiant Thor

An essential work of the cinematic history of the Weimar Republic by a leading figure of film criticism First published in 1947, From Caligari to Hitler remains an undisputed landmark study of the rich cinematic history of the Weimar Republic. Prominent film critic Siegfried Kracauer examines German society from 1921 to 1933, in light of such movies as The Cabinet of Dr. Caligari, M, Metropolis, and The Blue Angel. He explores the

connections among film aesthetics, the prevailing psychological state of Germans in the Weimar era, and the evolving social and political reality of the time. Kracauer makes a startling (and still controversial) claim: films as popular art provide insight into the unconscious motivations and fantasies of a nation. With a critical introduction by Leonardo Quaresima which provides context for Kracauer's scholarship and his contributions to film studies, this Princeton Classics edition makes an influential work available to new generations of cinema enthusiasts. The Val Thor story by the woman sent on assignment to him as his telepathic contact in 1950. What happened to them both through no fault of their own and why she is not his wife today as they planned after a three day whirlwind romance. Val was blamed officially for what happened and it was not his fault. His contact was hurt, her memory blocked and when it returned in 1980 she has tried to tell the truth of what really happened to her to clear his name on the Internet. That's the reason for this book that briefly outlines her story of contact

with him over the years. Nothing in this book is fictional, the author takes no author liberties in telling the story as well as remembers it of actual contact with a very human-like man from another world, visitor to the planet in 1950, 1957, 1979.

Noted thinker and galaxial philanthropist, Valiant Thor (mentor of Nikola Tesla), discusses various aspects of the Bible and how the modern Westerner can benefit from a clear picture of their meaning. Features several talks given by Thor and Dr. Frank E. Stranges when they were on the lecture circuit in the 1970s, helping Gray Barker save MUFON from a hostile takeover from JFK suspected killer.

New Saucerian Press proudly presents "Valiant Thor's JFK Assassination Reader" - one of the last books ever published by the iconic ufologist, conspiracy buff, and bestselling author, Gray Barker, whose writing informed the plotlines of shows like Star Trek, Futurama, The X-Files, Twin Peaks, The Outer Limits, and The Twilight Zone. Shuttling between his Manhattan publishing office and his secluded cabin deep in the hills of his home state of West Virginia, the prolific Barker single-handedly kept public interest focused on UFOs and conspiracies during their leanest years, and introduced many themes still discussed and investigated by today's paranormal and conspiracy researchers: the Roswell UFO Crash, Men in Black, Ancient Aliens, Nazi UFOs, the Philadelphia Experiment, the Flatwoods Monster, Mothman, MJ-12, secret underground bases, little green men, and the Maury Island Incident. "Valiant Thor's JFK Assassination Reader" and its sister books, "Mysterious Ascension," "Serpents of Fire," "Saucers of Fire," "Saucers of Fear," "Bigfoot Shootout," "Time-Traveling Through Swamp Gas," and "When Men in Black Attack: The Strange Case of Albert K. Bender" were collated by Barker shortly before his death, using material culled from deteriorating copies of his notoriously speculative newsletters and gossipy syndicated column - for years the most widely read national column on UFOs, Fortean, conspiracy, and "weird science." This unique edition was guest-curated by the illustrious thinker, Valiant Thor, and features an introduction by Gray Barker, as well as articles

by such JFK research notables as Jim Garrison, John Judge, Fletcher Prouty, Mae Brussell, Timothy Leary, Alex Constantine, Martin Cannon, Paul Rydeen, Paul Kangas and William Torbitt, which shed urgent, much-needed light on the "high-strangeness" aspects of JFK's murder.

He had actually put in many decades on our planet prior to that, although he was not, as they say, truly "in charge." Being a relative novice at that time, Thor decided to stick to traditional protocol and avoided mentioning the word "Vril" in these pages. (It had been decided long before that, by certain Venusian elders, to keep that particular word, and its conceptual underpinnings, secret from Earthlings - at least until the appropriate time.) Although it obviously wasn't the appropriate time, the term and the belief system behind it were revealed to certain nosy Germans, who had gotten heavily into the occult during World War II. These Nazi necromancers had somehow hacked into the ongoing telemetric stream between Earth and Venus, and illegally downloaded much of the information about Vril. Herein, the author states unequivocally, and for the record, that Vril has nothing to do with Nazism, fascism, racism, hate, or bigotry. Like most Venusians, Thor follows the teachings of Jesus Christ, Tecumseh, Krishna, and Buddha, which generally state that all men are created equal in God's sight, and are loved equally by God. Today, in 2018, most everyone has heard about Vril, so Thor is unabashed in stating that this book, edited for him by his brilliant human acolyte, Hilton Hotema, is about one of the key aspects of Vril: the art of rejuvenating human beings. Vril is about living life to the fullest, and loving to the fullest. Vril is truly the essence of the active verb, the powerful sentence, and the narrative that moves people to action. It is the energy behind the words, which makes the mind react in a positive and uplifting fashion. As the Buddhists say, our words are actions, and should be approached soberly, cautiously, compassionately, and empathetically.

In these current days of extreme political divide, where lying and deception are being spread from on high (much like the Nazis and KKK of old), we need Vrill more than ever, to counteract the "Antichrist" evil that seems to be sweeping the world under the false guise of "making America great again." Those of you who understand Vrill should have no problem understanding what Thor is saying. May these words, and the positive galaxial inspiration behind them, guide and comfort you as you go about your daily business in our dynamic, infinite, and loving universe.
