Pearson IIT Foundation Series, one of the most reliable and comprehensive source of content for competitive readiness, is now thoroughly updated and redesigned to make learning more effective and interesting for students. The core objective of this series is to help aspiring students understand the fundamental concepts with clarity, in turn, helping them to master the art of problem-solving. Hence, great care has been taken to present the concepts in a lucid manner with the help of neatly sketched illustrations and well thought-out real-life examples.

As a result, this series is indispensable for any student who intends to crack high-stakes examinations such as Joint Entrance Examination (JEE), National Talent Search Examination (NTSE), Olympiads-Junior/Senior /International, Kishore Vaigyanik Protsahan Yojana (KVPY), etc. The series consists of 12 books spread across Physics, Chemistry, and Mathematics for classes VII to X.

This market-leading introduction to probability features exceptionally clear explanations of the mathematics of probability theory and explores its many diverse applications through numerous interesting and motivational examples. The outstanding problem sets are a hallmark feature of this book. Provides clear, complete explanations to fully explain mathematical concepts. Features subsections on the probabilistic method and the maximum-minimums identity. Includes many new examples relating to DNA matching, utility, finance, and applications of the probabilistic method. Features an intuitive treatment of probability—intuitive explanations follow many examples. The Probability Models Disk included with each copy of the book, contains six probability models that are referenced in the book and allow readers to quickly and easily perform calculations and simulations.

New Trends in Physics Education Research

The Pearson English series has been specifically developed to meet the content and assessment requirements of the new Australian Curriculum: English. The series has been carefully crafted by practicing teachers and has been trialled in schools to ensure that all tasks are 'classroom ready'. New Senior Mathematics Extension 1 for Years 11 and 12 covers all aspects of the Extension 1 Mathematics course for Year 11&12. We've completely updated the series for today's classrooms, continuing the much-loved approach to deliver mathematical rigour with challenging student questions.

The Pearson Science New South Wales 9 Student Book has been

developed from the ground up with scientific literacy and accessibility at its core. Pearson Science New South Wales not only saves you time but is the only series that really engages your students. The engaging design, literacy focus, unambiguous features and clear, easy-to-understand language make the student book an invaluable resource for all learning types and abilities. From the publishers of the market leading Science Focus, Pearson Science New South Wales is written to exactly match the final NSW Syllabus for the Australian Curriculum. It will not only save you time in implementing the NSW Syllabus for the Australian Curriculum, but is the only series that really engages your students. The Pearson Science series includes content and activities presented within the context of the three NSW Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the NSW syllabus has been clearly differentiated from core content and is carefully placed in the flow of content. Extensive research and the development of a clear and fully accessible approach to content forms how the book is written.

**When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.**
