By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed. Godin shows that winners quit fast, quit often, and quit without guilt—until they commit to beating the right Dip. But maybe it's

Whether you're an intern or a CEO, this fun little book will help you figure out if you're in a Dip that's worthy of your time, effort, and talents. art, with illustrations by acclaimed cartoonist Hugh MacLeod. A sample: A is for Anxiety, which is experiencing failure in advance. Tell yourself enough vivid stories about the worst possible outcome and you'll soon come to believe them. Worry is not preparation, and anxiety doesn't make you better. F is for Feedback, which can be either a crutch or a weapon. Use it to make your work smaller, safer, and more likely to please everyone (and fail in the long run). Or use it as a lever to further push you to embrace what you fear and what you're capable of. This is unlike any previous Godin book and makes a great gift, both for loyal fans and those who've never read him before. Since it was first published almost a decade ago, Seth Godin's visionary book has helped tens of thousands of leaders turn a scattering of followers into a loyal tribe. If you need to rally fellow employees, customers, investors, believers, hobbyists, or readers around an idea, this book will demystify the process. to make a difference the tools to do so. With his signature wit and storytelling flair, Godin presents the three steps to building a tribe: the desire to change things, the ability to connect a tribe, and the willingness to lead. If you think leadership is for other people, think again—leaders come in surprising packages. Consider Joel Spolsky and his international tribe of scary-smart software engineers. Or Gary Vaynerhuck, a wine expert with a devoted following of enthusiasts. Chris Sharma led a tribe of rock climbers up impossible cliff faces, while Mich Mathews, a VP at Microsoft, ran her internal tribe of marketers from her cube in Seattle. Tribes will make you think—really think—about the opportunities to

a large corporation. Great marketers don't use consumers to solve their company's problem; they use marketing to solve other people's problems. Their tactics rely on empathy, connection, and emotional labor instead of attention-stealing ads and spammy email funnels. No matter what your product or service, this book will help you reframe how it's presented to the world, in order to meaningfully connect with people who want it. Seth employs his signature blend of insight, observation, and memorable examples to teach you:

- * How to build trust and permission with your target market.
- * The art of positioning--deciding not only who it's

for, but who it's not for. * Why the best way to achieve your goals is to help others become who they want to be. * Why the old approaches to advertising and branding no longer work. * The surprising role of tension in any decision to buy (or not). * How marketing is at its core about the stories we tell ourselves about our social status. You can do work that matters for people who care. This book shows you the way.

economy: the rise of the niche. As the cost of reaching consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of

an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know. The Long Tail is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the definition of what's commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches.

Most organizations are stuck in a rut. On one hand, they understand all the good things that will come with growth. On the other, they're petrified that growth means change, and change means risk, and risk means death. Nobody wants to screw up and ruin a good thing, so most companies (and individuals) just keep trying to

be perfect at the things they've always done. In 2003, Seth Godin's Purple Cow challenged organizations to become remarkable—to drive growth by standing out in a world full of brown cows. It struck a huge chord and stayed on the Business-Week bestseller list for nearly two years. You can hear countless brainstorming meetings where people refer to purple cows and say things like, "That's not good enough. We need to create a big moo!" But how do you create a big moo—an insight so astounding that people can't help but remark on it, like digital TV recording (TiVo) or overnight shipping (FedEx), or the world's best vacuum cleaner (Dyson)?

Godin worked with thirty-two of the world's smartest thinkers to answer this critical question. And the team—with the likes of Tom Peters, Malcolm Gladwell, Guy Kawasaki, Mark Cuban, Robyn Waters, Dave Balter, Red Maxwell, and Randall Rothenberg on board—created an incredibly useful book that's fun to read and perfect for groups to share, discuss, and apply. The Big Moo is a simple book in the tradition of Fish and Don't Sweat the Small Stuff. Instead of lecturing you, it tells stories that stick to your ribs and light your fire. It will help you to create a culture that consistently delivers remarkable innovations.
