Contains everything needed to celebrate the Saints' days, principal holy days and special occasions in the Church of England calendar. It brings together all the prayers and Collects needed for these days with Eucharistic material and music, plus Holy Communion Order One in the centre of the book for easy access.

The image of St. George—atop his horse, lance plunged halfway into a dragon's body—is so familiar to us that we take for granted what a long history it has had. As Samantha Riches demonstrates in this book, St. George is easily one of the most transported icons across cultures, and his history is the history of myth writ large. Traveling in Georgia, Greece, Malta, Belgium, Lebanon, Palestine, Ethiopia, Estonia, and many other places, she offers a fascinating look at one of the most popular mythical figures of all time. Riches traces St. George in his various appearances and guises across a wealth of religions and traditions. From Eastern Orthodox, Coptic, and Western European Christian traditions, she follows his trail into Islam, Hinduism, Judaism, Candomblé, and the many pagan systems where he has functioned a symbol of nature, springtime, and healing. Exploring the innumerable ways artists, poets, and painters have engaged his mythical import, she shows him to be at the center of many political divisions, where he has been used to advance one agenda or another. Drawing together many aspects of the cult of St. George, Riches provides a fascinating history of an enduring icon.

A compelling reexamination of the life of St. George is offered in this historical novel about the legendary patron of England and the workings of the Christian church of the third century. Cutting through the embellishments and mythology generated by centuries of enthusiastic storytellers, the author delves into original historical accounts of the man's life and times in order to tell his true story, from the traumatic murder of his father, through his time as a Roman cavalry officer and dazzling military tactician, to his struggle to survive the religious persecutions at the sunset of the pagan empire. As they follow St. George's military campaigns against Rome's enemies, readers will journey to the far corners of the Empire, meeting a host of historical figures along the way, including Aurelian, Diocletian, Galerius, Zenobia, and a promising young officer named Constantine.

The Legend of Saint George, Patron Saint of England

Sanctity and National Identity, 1272-1509

Common Worship

*Retells the segment from Spenser's The Faerie Queene, in which George, the Red Cross Knight, slays the dreadful dragon that has been terrorizing the countryside for years and brings peace and joy to the land. A Caldecott Medal winner. Reissue. St George's Day has become a topic of debate as more and more organizations promote celebrations on 23 April and more people wave the flag of St George to proclaim their allegiance and identity. But who was St George? How did this Near Eastern martyr become England's patron saint and an icon of English culture? And what is his relevance for today's secular, multicultural England? New research reveals that from the third century St George was revered as a healer, protector of women and the poor and patron of agriculture and metal-working more than a military dragon-slayer. Discover the origin of the cross of St George and the roles of Richard I, Edward III and Henry VIII in making St George the patron saint of England. With a foreword by Professor Emeritus Dan Brown, this richly-illustrated celebration of English culture shows how St George can be reinterpreted for our times while remaining true to our English heritage. St George can be enlisted in the cause of ecology, the campaign against FGM, and the fight to end modern slavery and resettle refugees. English yet international, revered both by Christians and Muslims, St George is a multicultural figure who symbolizes universal values.*

*Martyr, Patron of England*

At the heart of the myths and legends surrounding St. George lies the story of an early Christian martyr persecuted by the Roman Empire around the third century AD. But England is only one country to have adopted this soldier saint as their patron. Others, including Germany, Hungary, and Portugal, claim him as their own. The cult of St.

George is astonishingly widespread, with churches dedicated to him in Ethiopia, Egypt, and Greece. His heroic struggle and victory against the dragon can be interpreted as representing the bravery of an individual Christian or the eternal battle between good and evil. There are, however, clear parallels between his battle and those of pre-Christian heroes such as Perseus and Beowulf. St. George is also identified with the Islamic hero Al Khidr, who is said to have discovered the fountain of youth. Associated with the coming of spring and functioning as a fertility symbol, has been closely linked to the Green Man of Pre-Christian Myth. St. George has also acted as a symbol of chastity and served as a healing saint. His flag has been appropriated by the far right, but in recent times come to identify a multicultural England.

How St. George became the patron saint of England has always been a subject of speculation. He was not English, nor was his principal shrine there - the usual criteria for national patronage ; yet his status and fame came to eclipse that of all other saints. Edward III's use of the saint in his wars against the French established him as a patron and protector of the king ; unlike other saints George was adopted by the English to signify membership of the "community of the realm". This book traces the origins and growth of the cult of St. George, arguing that, especially after Edward's death, George came to represent a "good" politics (deriving from Edward's prosecution of a war with spoils for everyone) and could be used to rebuke subsequent kings for their poor governance. Most medieval kings came to understand this fact, and venerated St. George in order to prove their worthiness to hold their office. The political dimension of the cult never completely displaced the devotional one, but it was so strong that St. George survived the Reformation as a national symbol - one that continues in importance in the recovery of a specifically English identity.
