

## Simple Newspaper Report Examples For Ks1

*Prompts that will make your imagination soar through a wonder of creative writing! Simply the most needed book to begin a fictional-story for everyone to read or a personal (private) journal for your own counseling and entertainment.*

*This book is your guide to understanding what journalism is and could be in an age of digital technology and datafication. Journalism today is entwined with the digital. Stories can come from crowdsourcing and content farms. They can incorporate data visualisations and virtual reality. Journalists can find themselves working as self-employed digital entrepreneurs or for tech giants like Google and Facebook. This book explores the development of journalism in this era of digital tech, and big and open data. It explores the crucial new developments of online journalism, data journalism, computational journalism and entrepreneurial journalism, and what this means for our understanding of journalism as a profession, and as a part of society. Using a wealth of international case studies, Jingrong Tong explores contemporary issues such as: AI, Automated news, 'robot reporters', and algorithmic accountability. Digital business models, from venture capital to tech start-ups to crowd-funding. Audiences and dissemination in an age of platform capitalism. Questions of censorship, democracy and state control. Digital challenges to journalistic autonomy and legitimacy. With clear explanations throughout, Journalism in the Data Age introduces you to a range of ideas, debates and key concepts. It is essential reading for all students of journalism. Dr Jingrong Tong is Senior Lecturer in Digital News Cultures at the University of Sheffield.*

*One of the key features of an outstanding lesson is that all learners make progress. *Teaching Shakespeare in Primary Schools offers guidance and practical ideas for teaching Shakespeare's plays across Key Stage 1 and 2. It demonstrates how the plays can engage young readers in exciting, immersive and fun literacy lessons and illustrates how the powerful themes, iconic characters and rich language remain relevant today. Part 1 explores the place of classic texts in modern classrooms – how teachers can invite children to make meaning from Shakespeare's words – and considers key issues such as gender and race, and embraces modern technology and digital storytelling. Part 2 presents Shakespeare's plays: The Tempest, A Midsummer Night's Dream, Romeo and Juliet, Julius Caesar, Macbeth and The Winter's Tale. For each play, there is a suggested sequence of activities that will guide teachers through the process of inspiring children, incubating ideas and making connections all before responding to it through drama, writing and other subjects. You don't need to be an actor, a scholar or even an extrovert to get the best out of Shakespeare! Written by experienced teachers, this book is an essential resource for teachers of all levels of experience who want to teach creative, engaging and memorable lessons.*

*This volume contains nineteen essays - eighteen here presented for the first time - exploring the question of subjectivity as seen from a linguistic perspective. Part I concerns the relationship between the linguistic subject, particularly the grammatical first person, and the subject in more general sense of 'person'. Topics covered include deixis, verbal marking and temporalisation, and performatives. Part II concerns the relationship of subjectivity to the experience of reading, and as such considers the semiotics of both literary and non-literary texts, inter-modal representation, authorship and intertextuality. The essays in the volume are principally influenced by the thinking of Saussure, Jakobson, Guillaume, Benveniste, Wittgenstein, Barthes and Deleuze, and the book will appeal to scholars with an interest in theoretical linguistics, semiotics, discourse, analysis and philosophy of language. Karl Simms provides comprehensive introductions to each of the parts, making the book accessible to inform general readers with an interest in cultural and communication studies.*

*Communicative English for Engineers and Professionals covers the syllabi of B. Tech, BE, B.Com, M.Com, BBA, MBA, hospitality, B. Pharma, nursing, physiotherapy, and other courses. It integrates learning modules for spoken and written skills in English to give the readers an edge in their careers. Focusing on the requirements of professionals and students, this book equips them to effectively communicate and present themselves at their workplace and other interactive spheres.*

Selected by Asiaweek as one of the 10 Best Chinese Novels of 2006 Winner, Singapore Literature Prize for Chinese 2008 Selected by The Business Times as one of the Best Books of 2014 The Chinese protagonist of Cultural Medallion recipient Yeng Pway Ngon's novel, Trivialities about Me and Myself, is a journalist turned entrepreneur who possesses a split personality. "Me" is a figure consumed by greed and sexual desire, two impulses that undermine his careers, his two marriages, and his relationship with his son. Throughout the novel he engages in a dialogue with his other identity, the moralistic "Myself", whose principled stances try but usually fail to win over his other half. The protagonist's lifetime, from childhood to his dying days in a rest home, parallels the modern history of Singapore itself and its evolution from a colonised city to a consumer-oriented nation, one in which an English-language educational system and commercial interests suppress indigenous languages and traditions. While the meticulously described action takes place in the city, the real setting is within the psyche of the narrator, whose two halves are engaged in an epic struggle for dominance. In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers — the people who use the news — were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned Journalists, the twenty-

five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, *The Elements of Journalism* is the first book ever to spell out — both for those who create and those who consume the news — the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. *The Elements of Journalism* is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come.

*Students in the sciences, economics, social sciences, and medicine take an introductory statistics course. And yet statistics can be notoriously difficult for instructors to teach and for students to learn. To help overcome these challenges, Gelman and Nolan have put together this fascinating and thought-provoking book. Based on years of teaching experience the book provides a wealth of demonstrations, activities, examples, and projects that involve active student participation. Part I of the book presents a large selection of activities for introductory statistics courses and has chapters such as 'First week of class'— with exercises to break the ice and get students talking; then descriptive statistics, graphics, linear regression, data collection (sampling and experimentation), probability, inference, and statistical communication. Part II gives tips on what works and what doesn't, how to set up effective demonstrations, how to encourage students to participate in class and to work effectively in group projects. Course plans for introductory statistics, statistics for social scientists, and communication and graphics are provided. Part III presents material for more advanced courses on topics such as decision theory, Bayesian statistics, sampling, and data science.*

*The most comprehensive portrait of art criticism ever assembled, as told by the leading writers of our time. In the last fifty years, art criticism has flourished as never before. Moving from niche to mainstream, it is now widely taught at universities, practiced in newspapers, magazines, and online,*

*and has become the subject of debate by readers, writers, and artists worldwide. Equal parts oral history and analysis of craft, What It Means to Write About Art offers an unprecedented overview of American art writing. These thirty in-depth conversations chart the role of the critic as it has evolved from the 1960s to today, providing an invaluable resource for aspiring artists and writers alike. John Ashbery recalls finding Rimbaud's poetry through his first gay crush at sixteen; Rosalind Krauss remembers stealing the design of October from Massimo Vignelli; Paul Chaat Smith details his early days with Jimmy Durham in the American Indian Movement; Dave Hickey talks about writing country songs with Waylon Jennings; Michele Wallace relives her late-night and early-morning interviews with James Baldwin; Lucy Lippard describes confronting Clement Greenberg at a lecture; Eileen Myles asserts her belief that her negative review incited the Women's Action Coalition; and Fred Moten recounts falling in love with Renoir while at Harvard. Jarrett Earnest's wide-ranging conversations with critics, historians, journalists, novelists, poets, and theorists—each of whom approach the subject from unique positions—illustrate different ways of writing, thinking, and looking at art. Interviews with Hilton Als, John Ashbery, Bill Berkson, Yve-Alain Bois, Huey Copeland, Holland Cotter, Douglas Crimp, Darby English, Hal Foster, Michael Fried, Thyrza Nichols Goodeve, Dave Hickey, Siri Hustvedt, Kellie Jones, Chris Kraus, Rosalind Krauss, Lucy Lippard, Fred Moten, Eileen Myles, Molly Nesbit, Jed Perl, Barbara Rose, Jerry Saltz, Peter Schjeldahl, Barry Schwabsky, Paul Chaat Smith, Roberta Smith, Lynne Tillman, Michele Wallace, and John Yau.*

The New Cambridge English Course is a four-level course for learners of English.

With the younger generation today seeking jobs in multinational corporations, large companies, or the civil services in the

government, and the competition becoming stiffer and stiffer with each passing day, it is only natural that the ability to communicate effectively, precisely as well as to acquire communication skills has become more important than ever before. A plethora of books have flooded the market to capitalize on this frantic effort of the younger generation to become adept in communication. And professional communication is no exception to this. This accessible and compact book on Professional Communication strives to focus on the communication skills needed for the professionals. Divided into five parts and 19 chapters, the book begins with a discussion on the concept of communication, and then it goes on to give in detail features of a language as a tool of communication, the communication process models and barriers to communication. The text also elaborates on word formation, vocabulary, sentence structure and paragraph development. In addition, it explains different forms of technical communication; the format, layout and style of business communication; technical documents such as theses, scientific articles and research papers; and technical proposals. Furthermore, the book provides value-based text reading from celebrated writers. This student-friendly book, suffused with practical examples, is primarily intended as a textbook for the first year students of engineering (B.Tech.) of UP Technical University for their course on Professional Communication. It will also be of immense benefit to undergraduate students and technical professionals across the country. KEY FEATURES : Gives a broader perspective on communication and its barriers. Provides a more comprehensive division of the different types of reports. Elaborates on various approaches to presentation strategies.
