Wonderful things are being invented every day in Al Pha's world-fire, the wheel, even shadows! His big chance to be part of history comes when the King announces that the twenty-six recently invented letters need to be put in order. Al makes a bet with himself that he's the man for the job. Through a series of funny events, he eventually finds the perfect order for the letters, and the king rewards him by naming his creation the "Alphabet." Sure to entertain and engage young readers, this book turns the ABC's inside out. Kids will laugh at the quirky illustrations and clever wordplay, while wondering where the alphabet really did get its order.

Take a sticky trip to the museum! Stickyscapes at the Museum includes an 8-page sticker booklet, brimming with over 100 stickers; and a huge, double-sided fold-out panoramic scene for you to decorate. One side of the scene shows a busy museum during the daytime, with enormous dinosaur skeletons, priceless vases, and bored security guards! The other side shows the museum at night - when everything comes to life! Dinosaurs roam, knights-in-armor ride free, and paintings jump right out of their frames!

Adorn your skin with these beautiful tattoos inspired by the botanical world. With over 100 designs, from peonies, poppies and ferns to wild roses and daisy chains, Tatouage: Blossom also includes 21 art-print keepsakes. A mix of colorful and black-and-white designs, in a variety of sizes and shapes, makes

these tattoos suitable for different parts of the body. There is also a book of quality art prints to use for flower and plant identification, as art-print keepsakes, or as a flash sheet to inspire further tattoos. Each tattoo is non-toxic and transfers easily, leaving a vibrant design that will last a few days. When it begins to fade, it can be removed easily with baby oil.

Powerful and visually spectacular, Moth is the remarkable evolution story that captures the struggle of animal survival against the background of an evolving human world in a unique and atmospheric introduction to Darwin's theory of Natural Selection. "This is a story of light and dark..." Against a lush backdrop of lichen-covered trees, the peppered moth lies hidden. Until the world begins to change... Along come people with their magnificent machines which stain the land with soot. In a beautiful landscape changed by humans how will one little moth survive? A clever picture book text about the extraordinary way in which animals have evolved, intertwined with the complication of human intervention. This remarkable retelling of the story of the peppered moth is the perfect introduction to natural selection and evolution for children.

test; open to any page and you're hooked ... and it's free from tormenting academic jargon. Camera Arts This groundbreaking survey of international photography, which examines the discipline across the full range of its uses by both professionals and amateurs, has been expanded and brought up to date for this second edition. Each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art, science, social science, travel, war, fashion, the mass media and individual practitioners. These broad topics complement a fully developed cultural context whose emphasis is more on key ideas than individuals. The author also pays close attention to how contemporary practitioners, commentators and beholders have talked about specific works, the nature of photography and the photographers changing role in society.
