The Doctrine of Sola-Scriptura (Bible Only) teaches that Scripture (the Bible) alone is the sole source of authority for the Christian and the Church. Coined and promulgated by Martin Luther and John Calvin (1500’s), this doctrine has become the ground-floor upon which all of the doctrine of Protestant-Christianity has been built. If it can be proven that Sola-Scriptura is in error and that it is an innovation to orthodox Christianity, the entire body of purely Protestant doctrine will be, subsequently, rendered void. Using Scripture itself, reason, and a spoon full of humor,

David L. Gray (also called Yoseph Daviyd) brilliantly reduces the doctrine of Sola-Scripture to absolute absurdity; thus rendering all of Protestantism Dead on Arrival. This book is a must have for all Christians who love sacred Scripture and desire to use it as God intended. This the Second

Edition - The changes to the text from the previous version include additional material, modification to images, and correction of typos.

The future of work is already here. Customers are adopting disruptive technologies faster than your company can adapt. When your customers are delighted, they can amplify your message in ways that were never before possible. But when your company's performance runs short of what you've promised, customers can seize control of your brand message, spreading their disappointment and frustration faster than you can keep up. To keep pace with today's connected customers, your company must become a connected company. That means deeply engaging with workers, partners, and customers, changing how work is done, how you measure success, and how performance is rewarded. The joint ages of friends Joy Lennick and Jean Wilson may add up to one hundred and seventy one years, but there's nothing "old lace" about these two women writers; while the "arsenic" connection is questionable... Both adept at delving into the messy, murky world of murder, it is enlightening, and sometimes, a relief... to discover their added light, humorous touch. This makes for a diverse selection of highly entertaining short stories to tickle the fancy of readers of a variety of genres. Jean Wilson worked as a Queen's Nurse in the 1950s, and soon earned the affectionate nickname 'The Angel of Aldgate' for her cheerful, hard work among the sick of the East End of London; and Joy Lennick wore a few hats before becoming an author in 1984; adding many writing projects to her long list, including five books.

In this long awaited book, bestselling author Cohen offers a new--and humorous--look at the art and practice of negotiation in the 21st century.

“Jody is a masterful storyteller, with beautifully developed characters, incredible landscapes and every now and then she throws in a plot twist that will leave you reeling.” —Goodreads review Did you hear the rumor about the girl from the wrong side of the tracks who intentionally got pregnant with her wealthy boyfriend’s baby? The one thing that’s made perfect sense in Ginny Adair’s eighteen years was falling for level-headed Eric Cavanaugh. Growing up wasn’t exactly the same kind of party for her that it was for her boyfriend. While Eric and the other quintuplets ran roughshod over their family’s Texas ranch, Ginny was hiding from a cruel stepfather with a compulsive gambling habit. Uncertain if leaving for college might mean losing the one person she’s come to count on, all it takes is a single misstep for Ginny to unravel both of their lives. Now the entire small town is convinced Ginny always intended on cashing in on the notoriety of snagging herself a Kingsbrier Quintuplet. Eric Cavanaugh’s infamously misbehaved siblings count on his dependability. Stable grades. Stable relationship with a girlfriend the rest of the quints agree is just about the nicest, smartest, most trustworthy person they know. But when Ginny’s actions prove deceitful, it leaves Eric’s solid plan to take over the family business on shaky ground and leaves him questioning if his brothers and sisters have misplaced their confidence in him. To make matters worse, Ginny’s stepfather is proving he’ll do anything to get his hands on Eric’s trust fund. Eric knows Ginny isn’t like that and will do anything to earn his forgiveness. Some mistakes change the course of your future... But a baby is a mistake you can’t take back.

This comprehensive and cutting-edge book portrays a vision of how digital media can help transform schools, and what kinds of curriculum pedagogy, assessment, infrastructure, and learning environments are necessary for the transformation to take place. The author and his research team spent thousands of hours observing classes and interviewing teachers and students in both successful and unsuccessful technology-rich schools throughout the United States and other countries. Featuring lessons learned as well as analysis of the most up-to-date research, they offer a welcome response to simplistic approaches that either deny the potential of technology or exaggerate its ability to reform education simply by its presence in schools. Reinvent the Way You Work and Change the Future

The defeat of House Majority Leader Eric Cantor on June 10, 2014, was the most stunning upset in modern political history. Shown by his own polling to be leading by 34 points in the Virginia district he'd represented fourteen years, outspending little-known primary opponent Dave Brat 40-1, Cantor - widely presumed to be the next Speaker - was crushed by eleven points. Typically, the elite media had totally missed the story, buying into the narrative of Cantor-the-inevitable. Meanwhile the Brat campaign was putting together a vast, highly motivated grassroots army that day by day, voter by voter, was exposing Cantor for who he really was: not the staunch 'young gun' conservative he played on TV, but one of the nation's leading RINOs (Republican in Name Only), indifferent to his constituents, deeply self-interested and a key behind-the-scenes Democrat enabler on Obamacare, immigration and spending. The architects of that remarkable, against-all-odds victory were 23-year old Zach Werrell and 24-year old gray Delany. In 'How to Bag a RINO, ' they reveal in detail how it was achieved, and why it is a model for similar insurgent GOP campaigns across America as grassroots Republicans fight to take back their party, and the country. "This is the book the Republican Establishment does NOT want you to read" - Peter Schweizer, author of 'Clinton Cash' and 'Throw Them All Out.'

A woman and her husband rent a summer house, but what should be a restful getaway turns into a suffocating psychological battle. This chilling account of postpartum depression and a husband's controlling behavior in the guise of treatment will leave you breathless. 2018 Reprint of 1892 Edition. This short story is regarded as an important early work of American feminist literature, illustrating attitudes in the 19th century toward women's health, both physical and mental. Presented in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of exercise and air, so she can recuperate from what he calls a "temporary nervous depression - a slight hysterical tendency", a diagnosis common to women in that period. Gilman used her writing to explore the role of women in America at the time. She explored issues such as the lack of a life outside the home and the oppressive forces of the patriarchal society. Through her work Gilman paved the way for writers such as Alice Walker and Sylvia Plath. Written with barely controlled fury after she was confined to her room for 'nerves' and forbidden to write, Gilman's pioneering feminist horror story scandalized nineteenth-century readers with its portrayal of a woman who loses her mind because she has literally nothing to do.
