Why do people

work hard, and
take pride in what
they do? This

book, a philosophi-
cally-minded

enquiry into
practical activity
of many different

kinds past and
present, is about
what happens

when people try
to do a good job.

It asks us to think about the true meaning of skill in the 'skills society' and argues that pure competition is a poor way to achieve quality work. Sennett suggests, instead, that there is a craftsman in every human

being, which can sometimes be enormously motivating and inspiring - and can also in other circumstances make individuals obsessive and frustrated. The Craftsman shows how history has drawn fault-lines

craftsman and
artist, maker and
user, technique

practice and
theory, and that
individuals' pride
in their work, as
well as modern
society in
general, suffers
from these

historical
divisions. But the
past lives of
crafts and

craftsmen show
us ways of
working (using

which provide

Mind Your

Access Free Why We Make Things And It Matters The

help you quiet
and focus your
thoughts so you
speak directly

to your
unconscious
state of being
in a language

Meditation is
nothing more
than relaxation,
and in a

meditative
state, your

conscious can
relax and allow
you to speak
directly to the
unconscious. The
unconscious is
in charge of
your life, even
though you allow
your conscious
to be in
control. If you

want to

experience

change in your

life, you need

to learn to

bypass the

conscious

control which

can be described

as critical,

analytical, and

most of all

judgmental.

Meditating

through

relaxation is

how you

reprogram your

unconscious with

new concepts and

information. The

unconscious

learns by

applying this

information

against the

storage of all

your memories,

emotions. Also,
Korn
the unconscious
is much more
accepting of
change because
it processes
information
without
judgment. You
will see both
mental and
physical changes
